

Information for owners

To enrol at Canine Lounge, you need to complete the Enrolment Form and Liability and Waiver form. When completed, please contact us by phone or e-mail to lodge them before your dog commences.

Health and your dog

Canine lounge is unable to accept any dogs into daycare with contagious diseases or parasites. These include but are not limited to:

- Conjunctivitis
- Worms
- Kennel cough

If your dog enters our care and our staff consider it unfit for daycare, the dog will be isolated and sent home. Before returning to daycare, a veterinarian must declare the animal healthy and free of disease and parasites.

Dogs need to be up to date with their vaccinations and a minimum C3 vaccination is required.

Each dog will have a trial half day to determine its suitability for daycare.

Daily routine

There is a large open area that can be fenced into smaller areas to separate groups of dogs, such as large and small, timid and boisterous. Bedding will be provided for rest periods and play items are available to encourage interaction with handlers and other dogs. A smaller isolation area is available in case a dog needs to be separated from the group.

Feeding is to be done at home outside of daycare hours, but if your dog requires in-hours feeding, please speak with our staff.

If there's a problem

We may need to contact you if there is an issue with your dog's health or temperament. If your dog is injured while at canine Lounge, we'll contact you or the emergency contact to keep you informed. We will explain the incident and treatment given when collection is made.

If your dog is posing a risk to other dogs, this will be discussed with you. Options include

- attending on different days to better fit in with a different group of dogs;
- seeking the advice of a dog behaviourist;
- cancelling your dog's enrolment if we consider the other dogs are at risk.
