# Self-Storage Construction Firm Ideal Partners Group Joins Forces With M Bar C to Support Vehicle-Storage Developers/Owners

ISS Staff  
November 17, 2025

🕒 1 Min Read

Ideal Partners Group LLC, which offers construction-management and other services to the self-storage industry, is joining forces with M Bar C Construction, a national provider of vehicle-storage canopies and carports, to better support developers and owners of vehicle-storage facilities. The collaboration will strengthen the companies’ ability to assist with site layout and design, engineering, fabrication, and installation of traditional steel canopies, solar-ready structures and other types of boat/RV storage.

As part of the partnership, Ideal Managers Paul Cerejo and Joven Cuenco will work as sales representatives for M Bar C to serve the self-storage industry exclusively. Cerejo has more than 35 years of experience in construction. He’s managed multi-million-dollar projects in the commercial, government and residential sectors. With more than 35 years of experience in construction and facility management, Cuenco has spearheaded design and sales for boat/RV and solar installations nationwide. He’s completed more than 500 projects, including 14 million square feet of solar carports and 350 million square feet of boat/RV storage.

“Paul and Joven bring deep expertise in RV, boat and storage-canopy systems as well as in large-scale carport installations and strategic canopy solutions. They know the space, speak the language and deliver results, and are now backed by M Bar C’s 50-year legacy of carport installation, expertly trained in-house crews and coast-to-coast quality,” according to a statement on M Bar’s LinkedIn page.
