

Introducing M Bar C's RV & Boat Canopy Product Line

Dec 15, 2025 | News, Uncategorized

M Bar C Construction Introduces RV & Boat Canopy Product Line, Offering Prestige and Security for Vehicle-Storage Facilities in Collaboration With Ideal Partners Group

Imagine rows of sun-drenched RVs and boats sitting exposed, their vibrant colors slowly fading. In response to this all-too-common scenario, M Bar C Construction, a national leader in solar and non-solar carports and shade structures, today announced a dedicated RV & Boat Canopy product line for self-storage and vehicle-storage facilities nationwide.

The new product line meets the increasing demand for covered RV and boat storage by combining M Bar C's carport expertise with [Ideal Partners Group's](#) experience in self-storage construction management.

Purpose-Built Storage with RV & Boat Canopy Installations by M Bar C Construction & Ideal Partners Group

M Bar C's RV & Boat Canopies are specifically engineered for vehicle-storage and self-storage environments, offering:

- High-clearance, steel canopies accommodate motorhomes, fifth-wheels, travel trailers, and boats, including luxury coaches and larger recreational vehicles.
- Solar-ready and non-solar configurations are available, enabling owners to future-proof facilities or integrate renewable energy as needed.
- Optimized bay layouts and drive aisles maximize rentable space and improve traffic flow.
- Nationwide in-house installation crews ensure consistent quality and safety on every project.

This collaboration offers storage operators specialized canopies and tailored advisory support. Facility owners and managers can command premium rental rates, differentiate their sites, enhance curb appeal and customer experience, and support long-term asset value. By integrating M Bar C's structural expertise with strategic planning, developers and owners receive a comprehensive, future-focused solution for vehicle-storage projects.

M Bar C has installed millions of square feet of canopy all over the country. With our RV & Boat Canopy line, we're taking that proven expertise directly into the vehicle-storage and self-storage market. Facility owners are looking for ways to elevate their sites, increase revenue per square foot, and protect high-value vehicles. These canopies, supported by IPG's industry knowledge, are designed precisely for that purpose." – Erik Krivokopich, Vice President of Business Operations, M Bar C Construction.

M Bar C and IPG provide storage operators with a comprehensive solution from concept to completion. Facility owners can rely on IPG for planning, layout, and phasing strategies, while M Bar C's installation teams deliver high-quality, purpose-built canopy structures that meet operational and investment goals.

"Designing and building an RV & Boat Storage or large-vehicle canopy is more complex than it appears. The right layout is critical—not only to maximize rentable square footage, but also to ensure smooth, safe access throughout the site. Success requires a team that truly understands the needs of storage users. Partnering with M Bar C allows us to combine strategic planning with the 'gold standard' in carport construction, a company with a 50-year legacy and coast-to-coast experience. Together, we help storage developers and owners transform parking areas into high-performing, long-term assets." – Paul Cerejo, Manager, Ideal Partners Group LLC.
