

ABOUT THE ARTIST ~ NANCY C HENDERSON, MFA

I have a Master's degree in Fine Art,
a teaching credential for the University level,
and 32 years of professional experience as a
Fine and Commercial artist.

Clients include: Disney Creative Studios in
Burbank (3 story acrylic wall sculpture), and
SDSU's Love Library (28 ft long wall sculpture~
the major piece for the library).

Additionally, I have extensive design experience
with environmental groups such as Patagonia,
Sierra Club, The Nature Company, Greenpeace,
etc, producing fund raising products for them.

As a vendor to the San Diego Zoo for 25 years,
I painted many hundreds of animal and bird
illustrations as well as designing over 60 products
for sale in their gift shops to educate and raise
funds for them. I am environmentalist at heart!
My experience includes architectural rendering,
photo real portraiture, abstract painting and
printmaking, as well as hundreds of large scale
Tuscan and Plein Air landscapes.

My artwork has been shown in many galleries:
La Jolla, Del Mar, San Diego, Newport Beach,
Beverly Hills, and Palm Desert. My art has been
featured in magazines, the newspaper, ASID
Designer Showcases, and is in hundreds of
corporate and private collections.

These "Ribbons" are Like Legos for the wall!
Each piece is individually mounted using 2 to 3
drywall nails. They can be rearranged in any
number of different configurations~ vertically or
horizontally~ and even on curved surfaces!
These Ribbons are my own unique creation~ no
other artist has created anything like them.

My website: NancyCHenderson.com
>ADORE for additional information.
