

This is a 40 x 40 mixed media work that I have worked on for many years... It is 95% done, and can be color balanced to fit in a 5" wide custom simple pewter frame. I would like to find a client with an affinity for St Francis. His statue we all know is on top of the bell tower— with birds coming to greet him. Offered at the my full wholesale price— as work is to be done to complete— plus the custom framing and transport costs: \$1,750 plus framing at 300 or so.
