

Key Points of “The Invisible Rainbow”

The Ionosphere of the Earth

is the Electrical Exchange from Earth to ALL living organisms...

our Global Electrical Circuit

Natural EMF and RF radiation creates healthy ION exchange and **HEALTH**

Brainwave and Earth frequencies are the same.

Albert Einstein:
“Everything is Energy”

5,000 year old **Chinese Medicine** is based on a map of our **electrical system...**

Geomagnetic storms historically have produced illness.

With introduction of manmade telegraphy, telephone, radio, radar and WiFi frequencies— we have had an explosion in illness— **but this data is not getting out to the public.**

Humans are Electromagnetic— all Living Things are.

5G from satellites disrupts everything

WiFi RF Frequencies and especially 5G **disrupts our Voltage Gated Calcium Channels in our cells**— so that our Electron Transport is damaged. We can't get O₂/IONS into our mitochondria.

No Charge = No ION transport = Ultimately no life on Earth.

The **Destruction of our Earth's Natural Chi Field** through introducing manmade frequencies— which have never been known before— is the destruction of Life itself. This affects all of life on Earth.

We already have:

- 97% fewer insects caught in nets in the Amazon
- Bee Colony Collapse which started with radio frequencies
- Bird/Amphibian/Turtle/Flower/Plant life /Soil microorganism decline...

Why has no testing ever been done on 5G?

The World Health Organization is located in Geneva Switzerland. Geneva has had a moratorium on 4G and 5G since February of 2020

Read about it in “The Invisible Rainbow” by Arthur Firstenberg
