- Literacy is not a luxury but a right.
- If children don't have books to read they can never reach their full potential.
- EVERY CHILD is capable of greatness.

OUR MISSION.

Project D.E.S.E.R.V.E's mission is to get books into the hands of children in the United States. Period.

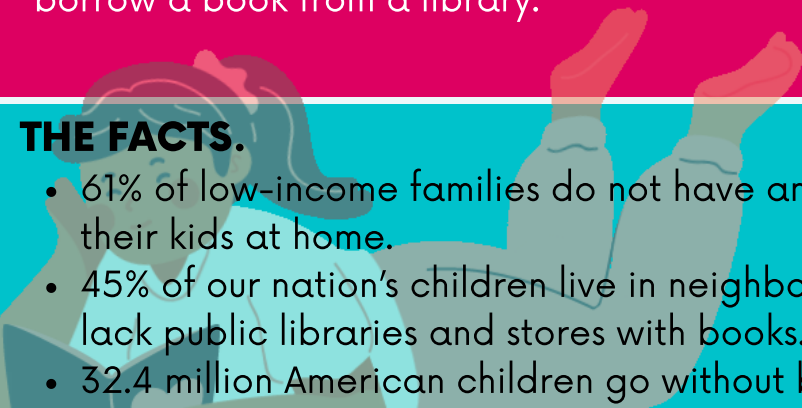

With Project D.E.S.E.R.V.E, we work directly with corporate partners and literacy non-profits to help eliminate book deserts.

WHAT ARE BOOK DESERTS?

Book deserts are neighborhoods within the United States where it's nearly impossible to buy a children's book or borrow a book from a library.

THE FACTS.

- 61% of low-income families do not have any books for their kids at home.
- 45% of our nation's children live in neighborhoods that lack public libraries and stores with books.
- 32.4 million American children go without books.

HOW PROJECT D.E.S.E.R.V.E. WORKS.

Through The Little Press you will donate books directly to non-profit organizations that support youth literacy within the United States. That means books into the hands of kids.

100% DONATED

100% of your monetary donation is used to purchase children's books published by The Little Press to be donated directly to non-profits. You will receive a receipt from the non-profit for your records. Minimum donation of \$100.

WE SEND THE BOOKS!

We send the books purchased by you directly to non-profit organizations to serve U.S. communities. A donation of \$500 will give approximately 50-60 books to children. You will receive a confirmation from us when the books go out telling you which organization received your books. We will send you the non-profit receipt. The Little Press does all of the work.
