

Financially Support Choose to Persevere

Life is full of unplanned challenges, and we all have a different story. I have learned so much on my journey of recovery as a hemorrhagic stroke survivor at the younger age of twenty-nine. There are so many trials we cannot control, but we always have a choice in our reaction to our circumstances. I am grateful for the gift of resilience and perspective that my challenges can serve a purpose. I am passionate about encouraging others and you can learn more about my journey at www.lorivober.com.

Choose to Persevere is now supported by a non-profit called **Animals and Humans in Disaster**. I am so grateful for this opportunity. To learn more about this amazing organization, please go to www.animalsandhumansindisaster.org.
