Investment Strategy

Uzbekistan is a country brimming with opportunity. In the heart of Asia, along the famed "Silk Road", Uzbekistan boasts rapid GDP growth, plentiful natural resources, a youthful population of over 34 million, an excellent education system, state-of-the-art infrastructure, and a burgeoning middle class. Unfortunately, Uzbekistan has historically been largely inaccessible to foreign investors. Until now.

Since 2017, the government has embarked on ambitious market-oriented reforms aimed at integrating the country into the world economy through trade and finance. Through the Uzbek Capital Markets Fund, investors are now able to capture these enormous opportunities.

The Uzbek Capital Markets Fund is Uzbekistan's first local market open-ended mutual fund. The fund provides access to a diversified portfolio of local Uzbek assets and is denominated in US Dollars. The fund provides tremendous upside potential with low correlations to the rest of the world.

The fund holds companies with large addressable market opportunities, strong business leadership & corporate management, an attractive blend of fundamentals, value and low risk with strong and increasing trading volume. The portfolio is thoughtfully constructed with an eye towards macroeconomic trends, favorable tailwinds and beneficial legislation and policy initiatives. It is diversified across industries such as Metallurgy, Insurance, Financial Services, Cement and Glass Production.
