«Why we rely on Swiss wood.»

Nature feeling.

Warum wir auf Schweizer Holz setzen.

Holz ist der Werkstoff für eine **NACHHALTIGE ZUKUNFT** schlechthin. Es ist ein fantastischer CO₂-Speicher und zudem wächst in der Schweiz jährlich mehr Holz nach, als geerntet wird. SWISS KRONO Produkte bestehen zu fast 100 % aus Schweizer Holz – natürlich aus nachhaltiger Forstwirtschaft. Damit halten wir die Transportwege kurz, erreichen ausgezeichnete Ökobilanzen und bringen Ihnen ein Stück Schweizer Wald nach Hause.

EN WHY WE RELY ON SWISS WOOD

Wood is the material par excellence for a sustainable future. It is a fantastic CO₂ reservoir and what's more, the wood grown in Switzerland exceeds the amount harvested per year. SWISS KRONO products are made of almost 100 % Swiss wood – naturally from sustainable forestry. This helps us keep transport distances short, achieve excellent eco-balances and bring a piece of the Swiss forest home to you.

FR RAISONS POUR LESQUELLES NOUS MISON SUR LE BOIS SUISSE

Le bois est le matériau par excellence pour un avenir durable. C'est un fantastique réservoir de CO₂. Qui plus est, il pousse chaque année en Suisse plus de bois qu'il n'en est récolté. Les produits SWISS KRONO sont composés quasiment à 100 % de bois suisse – naturellement issu de la gestion durable des forêts. Nous réduisons ainsi les distances de transport, obtenons d'excellents bilans écologiques et ramenons chez vous un morceau de forêt suisse.

IT PERCHÉ CI AFFIDIAMO AL LEGNO SVIZZERO

Il legno è il materiale per eccellenza per un futuro sostenibile. È un fantastico serbatoio di CO₂ e inoltre, in Svizzera cresce ogni anno più legno di quello che viene raccolto. I prodotti SWISS KRONO sono realizzati con quasi il 100 % di le-

gno svizzero, naturalmente proveniente da selvicoltura sostenibile. Questo ci permette di minimizzare i percorsi di trasporto e di raggiungere un eccellente ecobilancio, portando a casa vostra un pezzo di foresta svizzera.

ES OR QUÉ CONFIAMOS EN LA MADERA SUIZA

La madera es el material por excelencia para un futuro sostenible. Es una fantástica reserva de CO₂. Además, en Suiza cada año crece más madera de la que se recoge. Los productos de SWISS KRONO se fabrican con casi un 100 % de madera suiza que procede, por supuesto, de silvicultura sostenible. Así mantenemos los trayectos de transporte cortos, conseguimos excelentes equilibrios ecológicos y le llevamos un trozo de bosque suizo a casa.

PT PORQUE É QUE APOSTAMOS NA MADEIRA SUÍÇA?

A madeira é o material por excelência para um futuro sustentável, pois atua como um fantástico reservatório de CO₂. Além disso, todos os anos cresce mais madeira na Suíça do que a que é extraída. Os produtos SWISS KRONO são quase totalmente constituídos por madeira suíça, naturalmente proveniente de silvicultura sustentável. Assim, asseguramos curtas distâncias de transporte e excelentes equilíbrios ecológicos, além de levarmos um pouco da floresta suíça para a sua casa.

DE Die GRAND SELECTION ORIGIN ist seinem Vorbild, massivem und rustikalem Echtholz, so gut nachempfunden, dass auch Kenner sehr genau hinsehen müssen, um den Unterschied zu erkennen.

DE Wer es zeitgemäss und schick mag, wird unsere CHEVRON-Decore lieben. Das Design in der französischen Variante des Fischgräte-Parketts passt hervorragend zu moderner Architektur.
