

Arrow A54/ ETR 108" Gas Cooler

Build Date: 2008

Engine: Arrow A54 w/EMIT AFR controller & catalyst muffler (54 HP @ 1800 RPM)

Gas Cooler: East Texas Radiator (ETR) 108" w/on-skid separation and auto dumps

- MAWP's: 1,445 psi on coded separator and gas cooler section

Options Installed:

- Automatic dumps on fuel separator
- Automatic dumps on production stream gas separator
- Automatic louvers for cooler section
- EMIT air/fuel ratio controller with catalyst muffler

Condition: Unit is in excellent, low hour (only 33k total package hours since new), field-run mechanical condition (video evidence provided) with recent make-ready work completed. Recent work includes:

- Preventative maintenance- oil & filter change, valve adjustment, etc.
- Rod-out of all cooler tubes, which appear to be in excellent condition.
- Starter change, test run.
- Sandblasting, priming, painting entire package with industrial paint.

Package is well-built and will make a nice unit with a 2008 build date.

Price: \$65k (Exceptional price!)

Availability: 4 units available immediately in this condition.

(Inspections welcome.)
