

VEGAZ-Taelor | artist / creative director

I am a web graphics and music business graduate, with an immense love for visual art. My skill set on any given project is to drive it forward from inception, to visual concept design, and the final product. I am obsessed with creating experiences , while also centering my prior knowledge on branding identity. The unique goal of any project, for Vegaztaelor, is an identifiable aesthetic with a competitive edge. Whether it is my own art or I am working behind the scenes. This is where music meets the visual experience.
