

VT
STUDIOS
VI

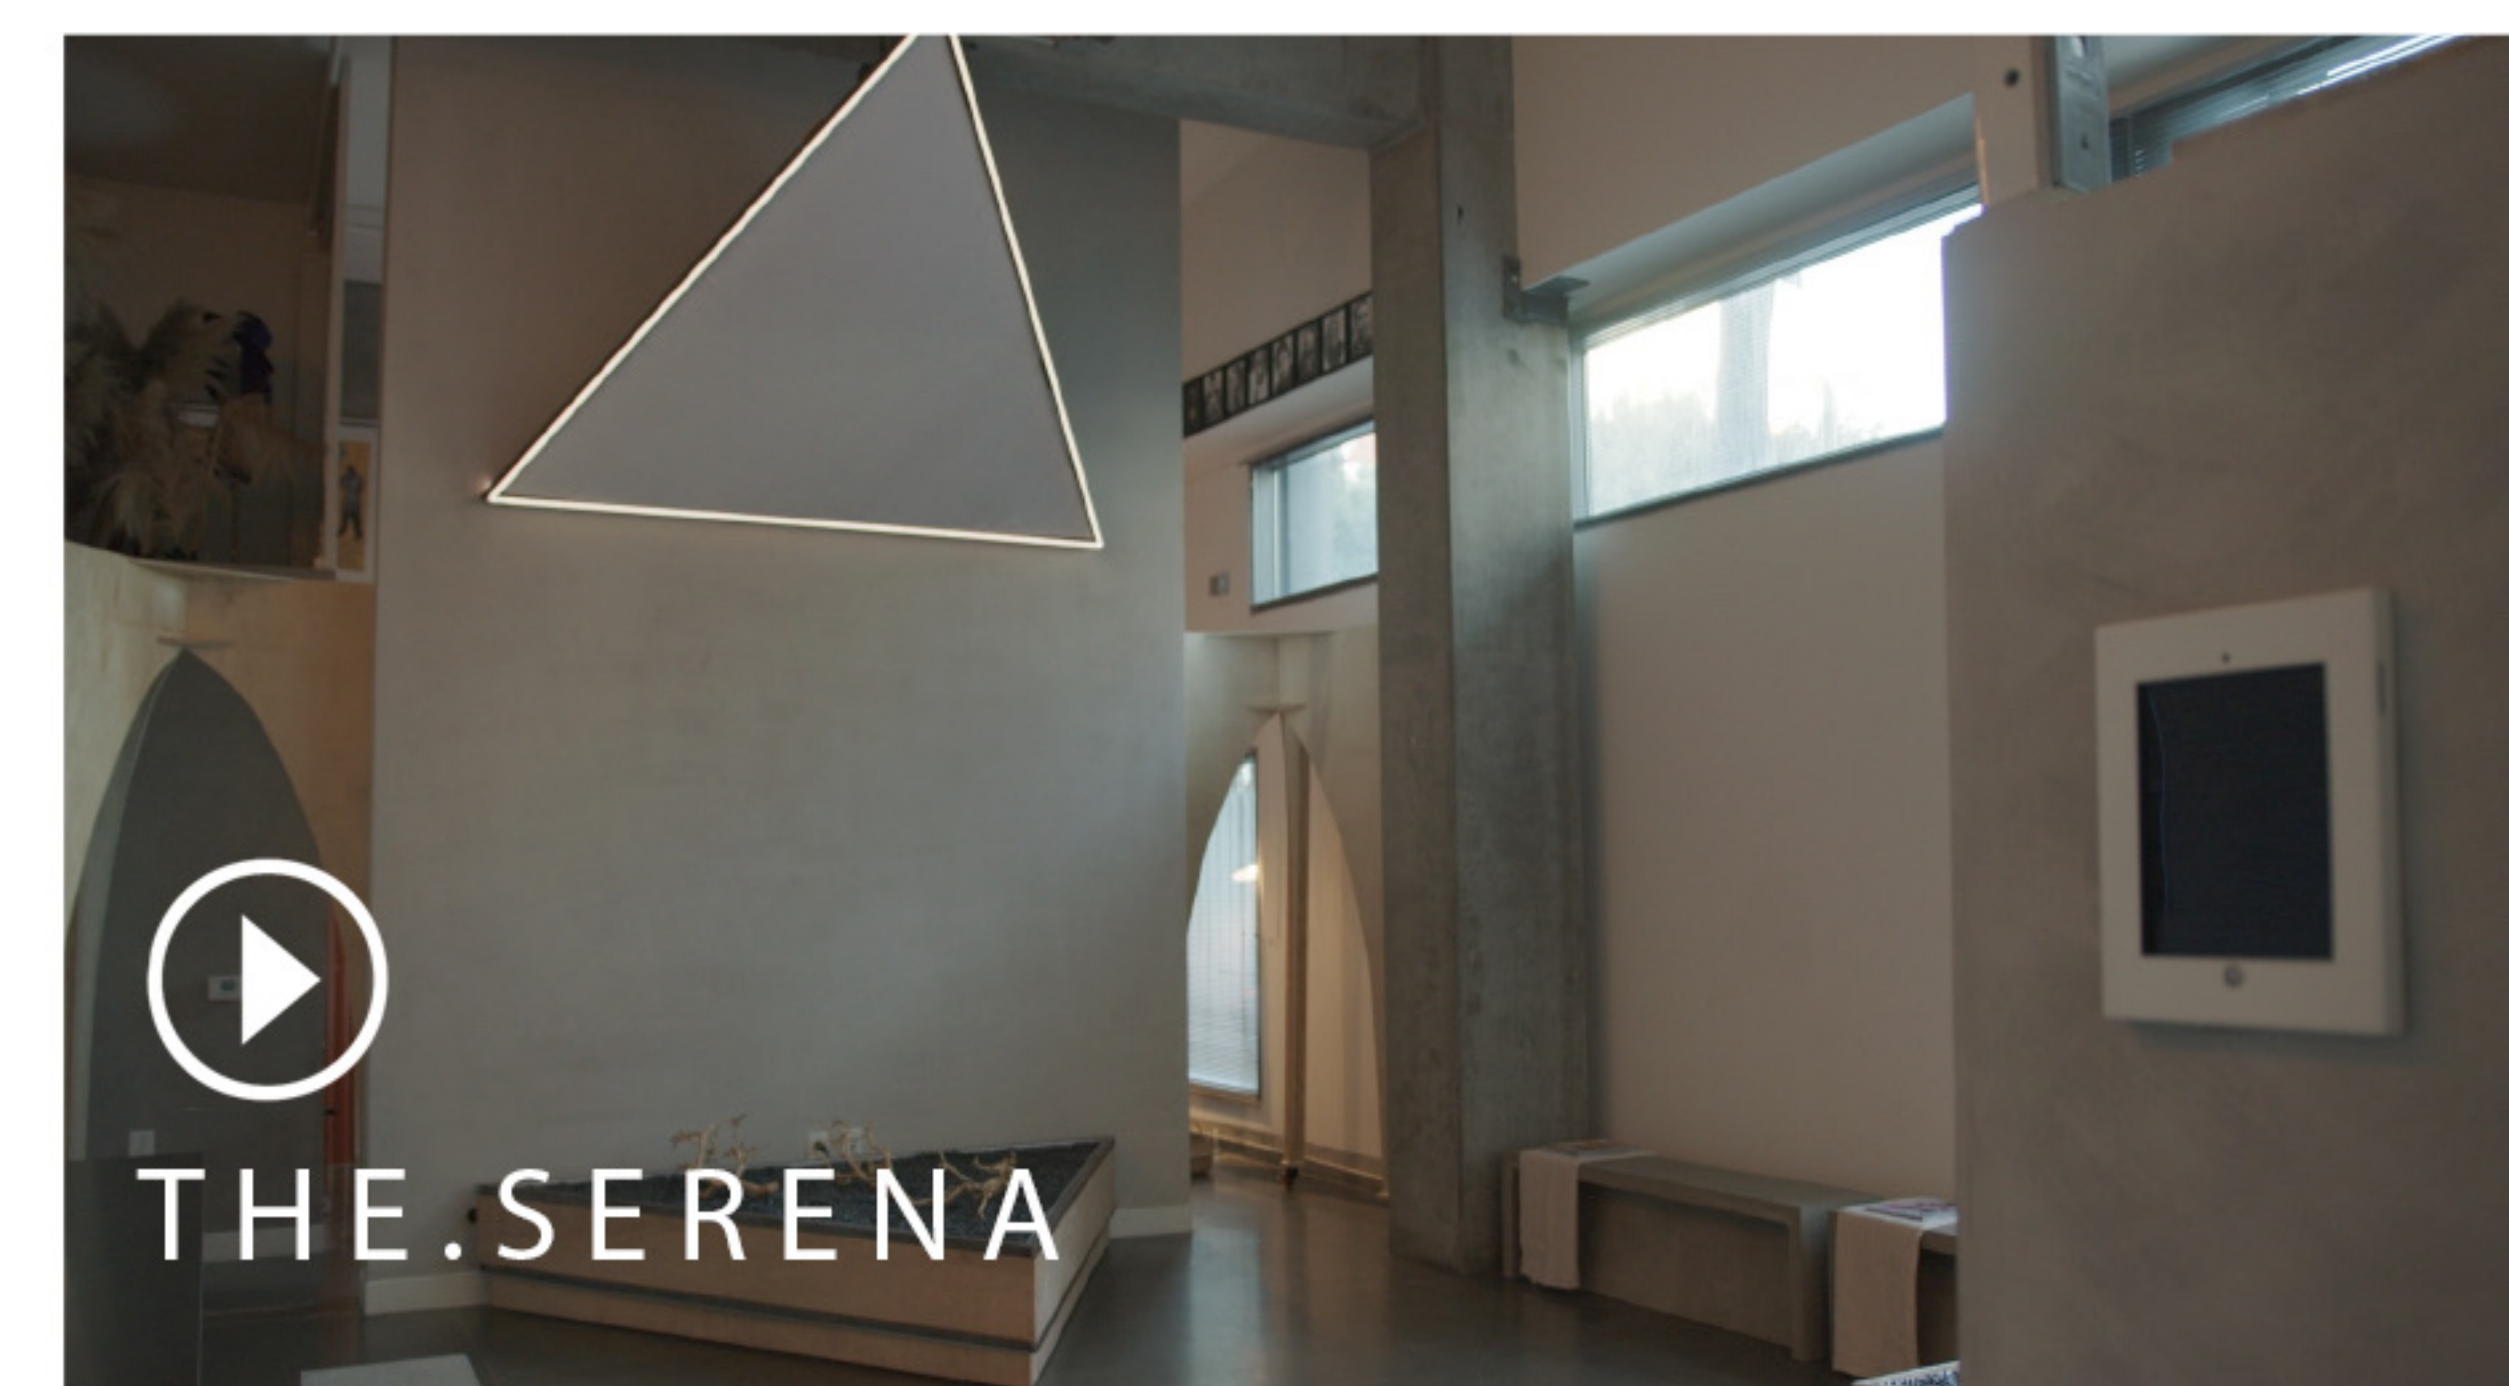

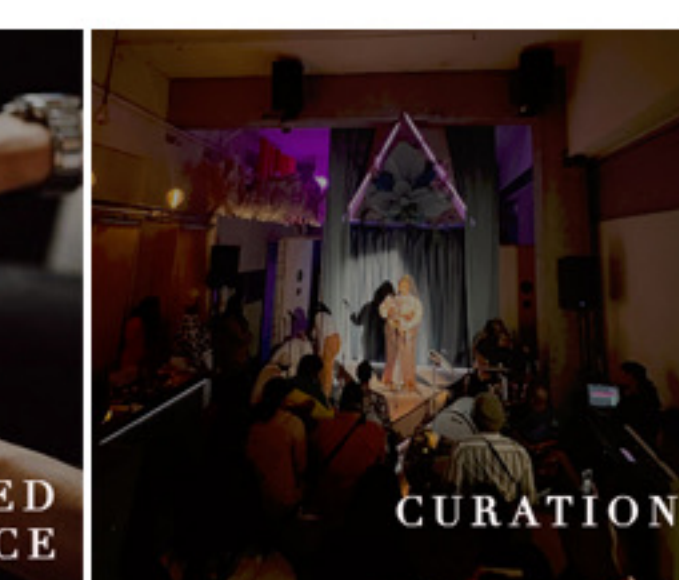

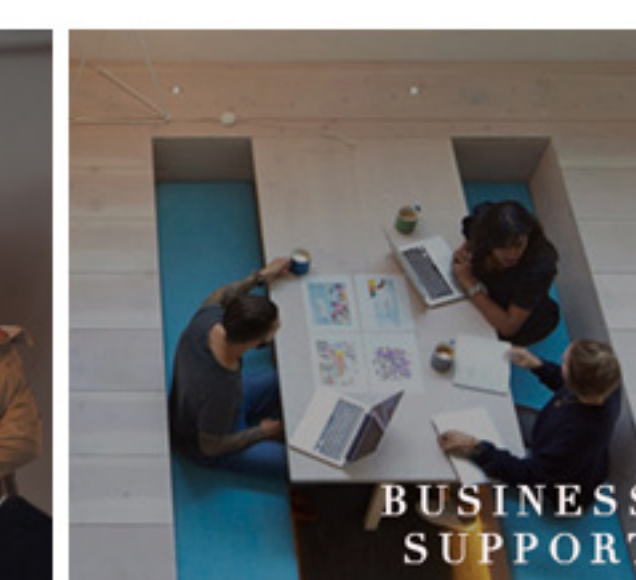

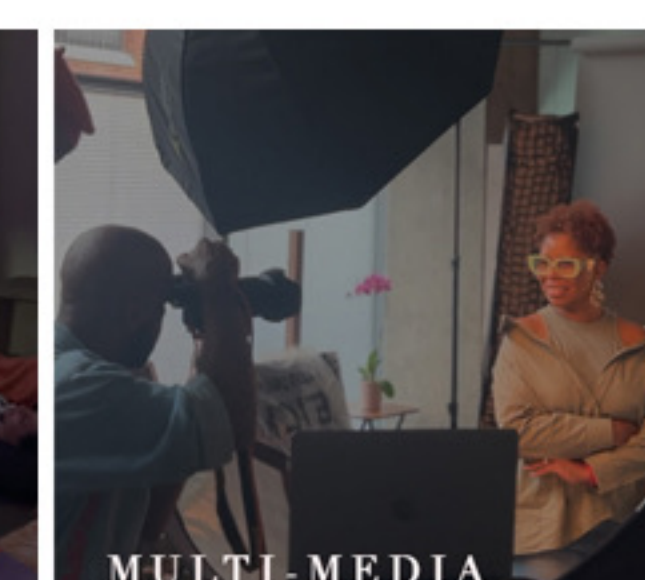

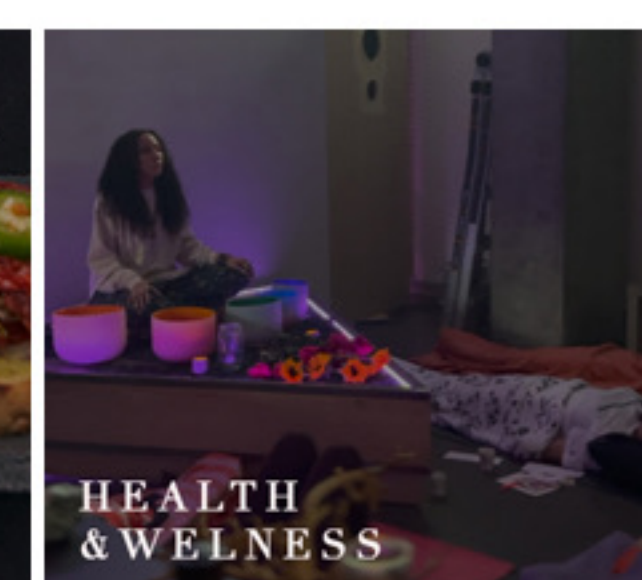

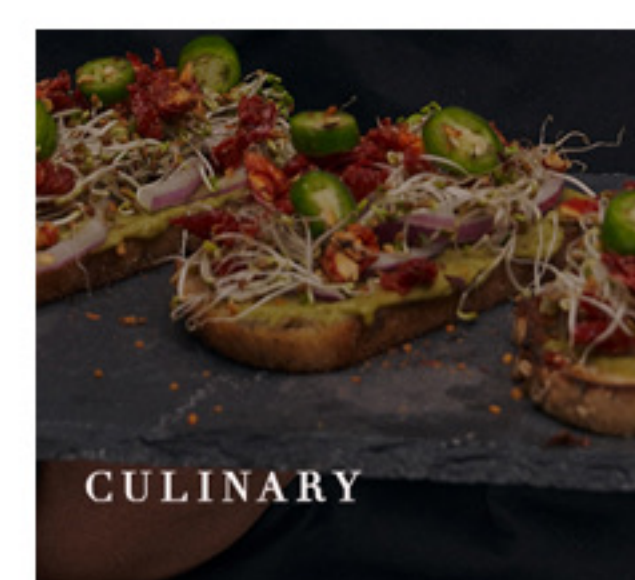

VT Studios

is a members-only social **creative** workspace designed to provide a sanctuary for creatives, inspiring their creativity in an environment that feels like an alternate reality. The concept draws significant inspiration from Vegaz's time on the road doing **Sunday service** with Kanye West, which was stoic, **communal**, and harmonious, with a strong emphasis on sustainability and showcasing natural elements while incorporating modern technology and a futuristic minimalistic aesthetic. The space aims to be both creatively stimulating and functional as a workspace. VT Studios will offer various amenities and services. **Culinary** experiences will be a focus, providing members with exceptional dining options. **Business support** will be available to assist members in hosting meetings and facilitating their professional endeavors. **Multimedia** facilities will be provided to enable members to create, record videos, and shoot photos. **Health and wellness** will also be emphasized, with offerings such as guided meditation sessions in various formats and panel discussions to share valuable information. **Curated events** will be a significant part of VT Studios, aiming to entertain guests at a high level with a more formal yet **social** atmosphere.

RECYCLE : we foster a community that wholeheartedly believes in the health of our planet. Sustainability is at the core of our practice.

CULINARY . HEALTH& WELLNESS . MULTIMEDIA. BUSINESS SUPPORT. FOCUSED PRACTICE .CURATION
