Funded in part by the Government of Canada.
Financé en partie par le gouvernement du Canada.

Canada 

Most members, and probably a lot of other people, will know that our main newsletter sponsor, Mt. Lehman Credit Union, recently amalgamated with a larger group of Credit Unions, known as G&F Financial.

Our branch is now known as Mt. Lehman Financial. We are grateful that they continue to support our community by helping to produce and print our newsletter.

Same great staff!

Every year, the Mt. Lehman Community Association awards two scholarships, each worth \$500. Applicants must have either lived in Mt. Lehman, attended Mt. Lehman Elementary, or whose family belongs to the Association. The bursaries are awarded by an independent body of judges associated with the School Board. This year's winners are:

Graduating from the Mennonite Educational Institute:

Ella Tecklenborg

Ella will be attending the University of British Columbia Okanagan in September, starting a degree in Science. Her plans are to get into veterinary medicine.

Graduating from the International Baccalaureate Program at Abbotsford Senior Secondary School:

Levi Rauch

Levi aspires to be a rocket scientist. First he plans to do his BA in Engineering, then, after working in the field for a few years, to take a Master's degree in Business Administration. His ultimate goal is to create spacecraft that are useful to mankind.

This is the old house that used to be opposite the Mt. Lehman Elementary School, on the corner of Taylor Road, where the red barn now sits. Can anyone shed light on who built it, when, and who used to live in it? This photo was taken about forty years ago, when it was already derelict, as is obvious.

Photographer: Sara Shadbolt
