Total	\$50,856.88					\$50,382.13

Ordinance report 1/20/2026

11/16/25 Rifle #14 Bolt failed to close after second round.

Disassembled rifle and found it lubricated but very dirty.

Performed an L2 on the rifle and test fired 8 rounds, ok.

12/2/25 Rifle # 4 Op rod separated from the bolt.

Disassembled rifle and inspected parts. I could not see a problem. Reassembled and test fired rifle. Ok.

12/15/25 rIFLE # 4 op rod separated from the bolt again.

12/24/25 Took rifle # 4 to the gunsmith for repair.

1/10/2026 Picked up rifle # 4 from the gunsmith.

Scott said that it was the first time that he had ever seen the problem that the rifle had. There are two rivets that hold the small fork on to the follower arm. One of them was broken into three pieces but did not fall out and could not be seen.

This let the follower arm move off side just far enough to push the op rod off of the bolt. He replaced the follower arm and op rod spring and test fired 30 or more rounds without a problem.

1/9/2026 Rifle #7 Front end blew off of the rifle.

Disassembled rifle and found it dirty dry and rusty. This was not the cause of the BFA blowing off though. I performed an L2 on the rifle and test fired 8 rounds, ok. If the log book on the last L2 on this rifle is correct then it means that the rifle must be cleaned more often due to usage to protect it from damage. My suggestion is that they are all cleaned more often.

E. E. Dreimiller Ordinance

15 RIFLES IN SERVICE

Quatermaster Report January 2026

1 Annual physical inventory will be finished middle of next week. It will be e-mailed to the Adjunct.

2 Waiting on squad inventory sheets from general issued equipment,

3 Equipment is being reevaluated at replacement price.

EXAMPLE—Shirts now \$32.00 then add flag a honor guard patch and then have them sewn on. The cost to replace one shirt is now \$47.00.

No purchases are forseen for the near future.
