

Integrative Access

FOUNDATION

Expanding Choices. Empowering Healing.

"We can't control every diagnosis. But we can expand access to hope, healing, and support."

INAUGURAL FUNDRAISER

April 19, 2026 • 3:00 - 8:00 PM

Chicago Gaelic Park

6119 147th St., Oak Forest, IL

Integrative Access Foundation is a newly established organization dedicated to expanding access to integrative cancer care therapies that support individuals alongside conventional medical treatment. These therapies are increasingly used to help support strength, recovery, and quality of life, yet they remain largely out of reach due to high costs and limited or nonexistent insurance coverage.

Our purpose is simple and focused: to raise funds and provide grants that help individuals pursue supportive, whole-person care during cancer treatment. By reducing financial barriers, Integrative Access Foundation works to increase access, preserve choice, and support continuity of care during a time that is often overwhelming for patients and families.
