

SUPPORT THE VISION

House of Anemone was created as a living body of work devoted to beauty, remembrance, and transmutation.

Every painting, collection, and future exhibition is built independently through the support of those who believe that art has the power to restore, transform, and connect us.

If this work has moved you, inspired you, or found you at the moment you needed it most, thank you for helping carry the vision forward.

Your contribution directly supports the continued creation of original works, immersive experiences, and the evolution of House of Anemone.

With gratitude,

Anemone Mars

Artist & Founder
