# 2022 Maryland School Board Candidate Survey Results

In 2022 many areas heard this year being called the year of the parent. With many parents and family oriented groups finding displeasure in various aspects of the public education of their Children we developed a non-partisan email/online survey and presented to all Maryland School Board Candidates running in the 2022 elections. The candidate information was sourced through publicly accessible information provided by the Maryland Board of Elections online.

148	Candidates
28	Survey Completed

**Out of the 148 Maryland Candidates we contacted, only 28 completed the survey.** Many candidates were followed up with by phone when available and either refused to participate or did not follow through with completing the survey as requested. Candidates that dropped out of the election were not included in this dataset.

# Survey Topic Questions

All Candidates presented with this survey were asked a series of questions on topics developed based on the concern of parents. Below is the tabulation of these results.

“1.) Should Local Schools change the curriculum without parental consent?”

“2.) Does the Maryland State Department of Education Health Curriculum oversexualize the students?”

“3.) Are you concerned that the history of America is being changed?”

“4.) Do you believe parents should have the opportunity to receive funding for school choice?”
