

TATTOO AFTERCARE WITH DERM SHIELD

APPLICATION

- Gently clean and pat dry the tattoo and surrounding area—no soap or residue.
- Cut Derm Shield to cover the tattoo with a 1"-2" margin.
- Peel the backing and apply gently, starting from the center out to eliminate air bubbles.
- Leave the first application on for 24 hours. Fluids collecting under the bandage are normal.

1

RE-APPLICATION

- Replace the Derm Shield if needed, leaving each application for a few days.
- Gently clean and dry the area between changes. Do not wear any piece longer than 1 week.

2

REMOVAL

- Slowly peel from the edges, pulling it back over itself—avoid pulling upwards.
- A small amount of baby oil can be applied to get any remaining adhesive off
- Apply unscented lotion as needed

3

Caution:

Do not use on infected wounds. If you have adhesive allergies or experience irritation, discontinue use immediately and consult a physician if necessary.
