

## Ceremony Creation & Delivery

Every ceremony is unique, and created following a detailed and extensive interview with the clients or family, whenever possible.

We design and write ceremonies that celebrate and honour clients' culture and heritage.

Every ceremony is planned and structured to accurately reflect the life, values and beliefs of the person/people concerned.

We are clear and confident speakers, using our voices and bespoke scripts to engage the clients and their guests.

We actively employ our Health & Safety training to minimise risk, before, during and after our ceremonies.

## Continuous Professional Development

We understand and embrace the concept of Continual Professional Development and recognise that this is vital to maintaining and enhancing the standard of our work.

We acknowledge that Celebrancy is an ever-developing profession and we undertake to keep abreast of, and abide by, changes to local and national legislation and laws.

We will keep records of C.P.D. courses and sessions we have attended as we continuously seek to improve the service we offer to clients.
