KT

M14 K Tsang (M14 & CAPSTONE STUDENT)

I highly appreciate the HKCA tutors' help in enabling me to pass the Capstone Exam. This (J25) exam was tough but fair, pushing every topic I covered this year into one last challenge

First, the clear, precise and constructive HKCA mind maps allowed me to apply a top-down approach when answering questions. The four-module mind-map notes helped me analyse and respond from different perspectives, leading to higher scores.

Second, whenever I could not understand an IRO or an accounting standard, I asked the tutors questions and clarified the concepts quickly.

Third, practice is essential. I did my best to answer all the Mock-exam questions, and the HKCA tutors always reminded me of useful examination techniques and strengthened my commercial awareness.

I hope my experience will help other classmates achieve a passing grade.
