KENNETH A. BABOUN

BGI COMPANIES, PRESIDENT & DEVELOPER

With close to 20 years' worth of experience in finance and real estate development expertise, Kenneth Baboun is one of the industry's most proven experts when it comes to innovative and successful high-end real estate development. Since 2003, Mr. Baboun has worked with some of the world's most competitive development markets – overseeing residential, commercial, multifamily, and mixed-use properties throughout New York and South Florida, including Manhattan, Miami, and the Palm Beaches. As the Managing Member for BGI Companies, he leverages his considerable first-hand knowledge towards identifying new development opportunities with strong potential for favorable return on investment and unique market appeal. As well, he lends his insight towards financial strategy, budgeting, investments, and setting performance benchmarks, with the aim of maximizing the final profitability of each and every project for which BGI Companies is involved.

Previously in his career, Mr. Baboun served as President of BBB Group, a real estate development firm that successfully executed several multi-million-dollar developments in the greater Miami market, including a 49-story luxury residential high-rise in the heart of the city's exclusive Brickell financial district. He has also previously served as Chief Executive Officer of Brickell Plaza Development. Throughout his career, Mr. Baboun has routinely managed engineers, architects and consultants, evaluated costs, investments and performance indicators, and tracked progress on numerous top-of-market development projects. In his leadership position for BGI Companies, Mr. Baboun works to deliver end-to-end real estate development solutions through a multi-industry conglomerate with individual subsidiary companies each specializing in a distinct market or real-estate related service. The various divisions under BGI Companies umbrella deliver proven expertise and knowledgeable professional services for financing, sales & marketing, acquisitions, pre-development, construction liaison, architecture and interior design consultation, project management, property market positioning, and more. Because each subsidiary maintains a specialized focus within its own field of operations, BGI Companies is uniquely equipped to pursue a broad range of real estate opportunities, with the flexibility to engage individual subsidiary divisions only as needed in order to allow better alignment with other development partners. The result is a more streamlined development process with less redundancy, greater cost efficiencies, and enhanced overall financial performance for all partners involved.

In 2018, Mr. Baboun was awarded South Florida Business Journal's Top 40 Under 40 and in 2019 was an Up-and-Comer honoree for South Florida Business and Wealth. He was awarded the South Florida Business & Wealth's 2021 Finance Award for Innovation of Finance. He is also the 2005 recipient of the Visionary Award from the Developers & Builders Alliance in Miami, Florida.

Mr. Baboun holds a Bachelor of Science in Business Management from Bentley College in Massachusetts and is a certified fund manager from the American Association of Private Lenders.
