ABOUT SKY PRODUCTIONS

Sky Productions is a professional video company that provides quality HD or UHD video at affordable prices. We specialize in filming events, weddings, commercials, music videos, concerts, funerals, documentaries and much more. Our unique approach is to provide our customer with our expertise coupled with their desires and offer a finish product that normally exceeds expectations. We have been in business since 2004 and have upgraded our studios and equipment to include 4k cameras. In addition to our videography, we also offer livestream, photography, DJ, and live music performances. THIS IS A SPECIAL UNIQUE VENTURE FOR EVENTS, WEDDINGS AND PARTIES. When needed we offer arial drones that also captures 4k footage. In a competitive market, we offer satisfaction to our customer. We make memories and promotions that will last a lifetime. Simply put, We tell your story.

WEDDINGS

We will capture that special moment with as many cameras as needed. We want our customers to be totally satisfied. We offer several wedding packages that will fit any budget. Most of our weddings are

produced in documentary style that will tell a story and capture those special moments of your special day. Coupled with our photography services, we reduce you overall cost of having to make a choice. We will meet you on any budget and give you the best that we offer. This special day will be viewed for many generations and those moments reserved in a way that will last a lifetime. This special day will be viewed by generations to come. Your moment will be preserved forever.

DRONE SERVICES

We also provide arial videography using a drone to capture 4k footage. We are registered and licensed with the FAA to provide professional footage utilizing arial drones.

Although we capture 4k footage, we can compress it to any format desired or needed. This device adds a special view that will captivate any audience or viewer. Our pilots are professional and adhering can operate in many environments. ***It should be noted that our pilots will not fly if the weather and wind conditions are not conducive to safe flying.***
