LIVE STREAMING ADD ON:

We can stream your wedding ceremony worldwide on the internet.

- **If this is an add on to an existing package, the cost is an additional $200**
- **If no package is purchased, the cost is $500. This includes 1 videographer, 1 camera, streaming hardware and software.**
- **The stream can be public or private. If private, only those with the purchased link will be able to view the stream. The stream can be archived online for a maximum of 30 days.**

DEFINITIONS:

Wedding Trailer – Like a Hollywood movie preview, we create a teaser, or trailer, of your wedding video. Running time is about 2 to 4 minutes in length and is released online before your final product is delivered.

The Vignette – Edited like a music video, the Vignette can be fast and fun, or touching and romantic. This is a wonderful edit with a length of 3 to 5 minutes and is released online after your wedding is complete.

Wedding Featurette – This is a beautifully edited video that runs 9 to 14 minutes. It tells the story of your wedding day in a very entertaining and lovely way. The Wedding Featurette will be the video that you will show your family and friends.

Documentary Edit – Your wedding video in a natural, organic, way usually with a run time of 1 to 2 hours. This is a video that will give you that real feeling. It includes the complete ceremony, with multiple camera angles edited together, and most scenes captured throughout the day. Most of the natural audio is also retained.

Love Story – A story of how you met, how your relationship grew, how you were engaged and why you love each other now. The Love Story can be played at your reception and gives your guests a glimpse into your history and the love you share with each other; it is a real crowd pleaser!

Sky Productions Video Wedding Cinema Packages
