

## PT Market Update – January 2026

---

**Overview:** The PT Market Update is a monthly snapshot of publicly announced mergers and acquisitions in the physical therapy space, viewed from the lens of the practice owner. This report includes only transactions that were formally announced or where PTPS&C was provided with permission. Undisclosed transactions are not reflected.

### **January Highlights:**

January saw four reported closings, a notable decline from the last 2 Januarys where there were eight. While January is typically one of the stronger months for deal activity, this year began at a slower pace.

It's also worth noting that two reported transactions that closed are PT-adjacent businesses such as hospital partnerships and injury prevention services. Although those deals are not included in this report, they may signal an emerging trend as PT organizations explore new revenue streams and strategic relationships in 2026.
