

### **NEW SERVICE UPDATE – PLEASE READ**

***Hey babes! ❤️ I want to keep giving you bomb nails without compromising health – mine or yours. I've recently developed a mild allergy to acrylic products (nail tech life, right? 😊), so I'm transitioning to safer, healthier options that are just as strong and gorgeous!***

#### **✨ What's Changing?**

- ***I'll be focusing on structured gel manicures and soft gel extensions (Gel-X style).***
- ***Custom press-ons are also available for my babes who love to switch it up!***

#### **✨ Why You'll Love It:**

- ***No harsh acrylic monomers or strong odors***
  - ***Lighter, natural feel but still durable***
- ***Safer for your natural nails = healthier growth***

***Thank you for understanding and supporting me through this change! I promise—you're still gonna leave sitting pretty every time. ❤️***
