

BRINGING UP BABY

presents:

WHAT'S YOUR BABY THINKING?

An engaging, interactive and uplifting workshop introducing parents and carers to the social and emotional world of their baby

A Free workshop for Parents & Carers

Have you ever wondered what's going on in your baby's mind? Babies may not have words yet, but they are incredible communicators from the very start!

Join us for a 20 minute* engaging, interactive, and uplifting session that will be tailored to your unique setting/audience where we'll explore:

- ♥ How babies communicate
- ♥ The incredible capacities of newborns
- ♥ Why YOU are the centre of their world- and how they communicate how much you mean to them
- ♥ How to nurture a strong bond between you and baby

This session is perfect for parents and caregivers who want to deepen their understanding of early relationships and the emotional world of babies.

Host this free talk at your community space!

We're offering this session at Community Centres, Maternal and Child Health Centres, and Parent Groups throughout February/March.

Interested in bringing this to your community? Apply below- we'd love to connect!

**duration of presentation is open to negotiation based on your setting*
