Meet *Nathan & Minji*

Cube, After School English & Math

Meet Nathan and Minji, a dynamic couple whose life journey is a testament to resilience, determination, and the power of education. Originally from South Korea, their story is one of hope, innovation, and the unwavering pursuit of their dreams.

In 2021, Nathan and Minji, along with their two children, embarked on a life-changing adventure when they made Canada their new home. The transition to a new country came with its fair share of challenges, particularly in Nathan's quest for employment. But they chose not to be disheartened by these initial setbacks; instead, they saw them as opportunities for growth and transformation.

With a shared passion for education and a commitment to making a difference in their community, Nathan and Minji founded an after-school self-study program for students between grades 2 to grades 8 named **CUBE**, with a specific focus on Reading Comprehension and Math.

Nathan is equipped with a BA in Accounting, Dip Business, ESL Certified 15+ years of teaching, from K to University Math, Biology, Sciences, Speaking, IELTS, TOEFL, PTE and Minji has a BA in English Literature, ESL Certified 5+ years of teaching English and Korean from K to University and adults.

Their unique backgrounds, blending and qualifications, set the foundation for a program that's truly exceptional, encouraging others to follow their passions, believe in their dreams, and, above all, never give up on the journey of making a difference.
