700 S. Lafayette Street, Sioux City, Iowa

# PROJECT UPDATE

The Siouxland Expo Center project has experienced more progress over the last couple of months. Almost the entire shell of the building has been erected with nine of the twelve bays installed and the remaining structure scheduled to be up in the next couple of weeks. All underground utilities as well as the north parking lot have been completed.

Grading for the parking areas around the building has been completed and paving of those areas will begin in the spring. Once the building has been enclosed, the construction will shift inside during the winter months. We are still on target for a June 2020 completion.

The project is in such a visible location it has been fun to watch the progress. Your contribution to making this project a reality is very much appreciated. Just a reminder, your first-year pledge is not due until the building is open; however, there are advantages of giving early. If you would like to start your contribution early and submit your first-year pledge in 2019, please let me know and I will send an invoice ASAP. Tax receipts will be sent out immediately upon receipt.

Happy holidays to you and yours! Look for another update in a couple of months.

Dirk Lohry,  
Siouxland Expo Center President
