**Farmers Branch TX 75234**

EarthX is a branded home and daily necessities enterprise that has long focused on household cleaning products. As an influential innovative company worldwide, it specializes in the R&D, production, and marketing of high-quality household cleaning and daily necessities, including premium laundry detergent pods, scent booster beads, dishwasher tablets, detergents, as well as high-end garbage bags and food storage bags. Its products are widely trusted by consumers across the globe.

The company has always been committed to advancing technological progress and innovation in the cleaning industry. Equipped with advanced R&D equipment and a professional technical team, it continuously identifies market demands and develops high-efficiency, eco-friendly household cleaning products. By keeping pace with international advanced technologies and introducing cutting-edge production processes and management experience, EarthX provides a solid foundation for its own sustainable development.

In terms of product R&D, EarthX adheres to a market-oriented strategy centered on consumer needs. Its R&D team constantly explores new technologies and formulas to ensure that the performance and quality of its products meet international advanced standards. On the sales front, leveraging innovative marketing concepts and a professional sales team, the company adopts diversified channels and flexible strategies to distribute its products to markets around the world.

Looking ahead, EarthX will continue to uphold the philosophy of "Innovation, Quality, and Service." It will launch more high-quality household cleaning products to meet the needs of global consumers, while strengthening cooperation with international peers to jointly drive the development of the cleaning industry. In summary, EarthX (U.S.) Daily Chemical Technology Co., Ltd., with its professional expertise, advanced equipment, and innovative ideas, has become a leading enterprise in the cleaning sector. Our lofty goal is to love life, love our families, love the world, and embrace all beautiful things!

thanks!

**Strong factory can achieve sales of 20 million USD and deliver production capacity throughout the year**

Provide customized services to customers from R&D to after-sales

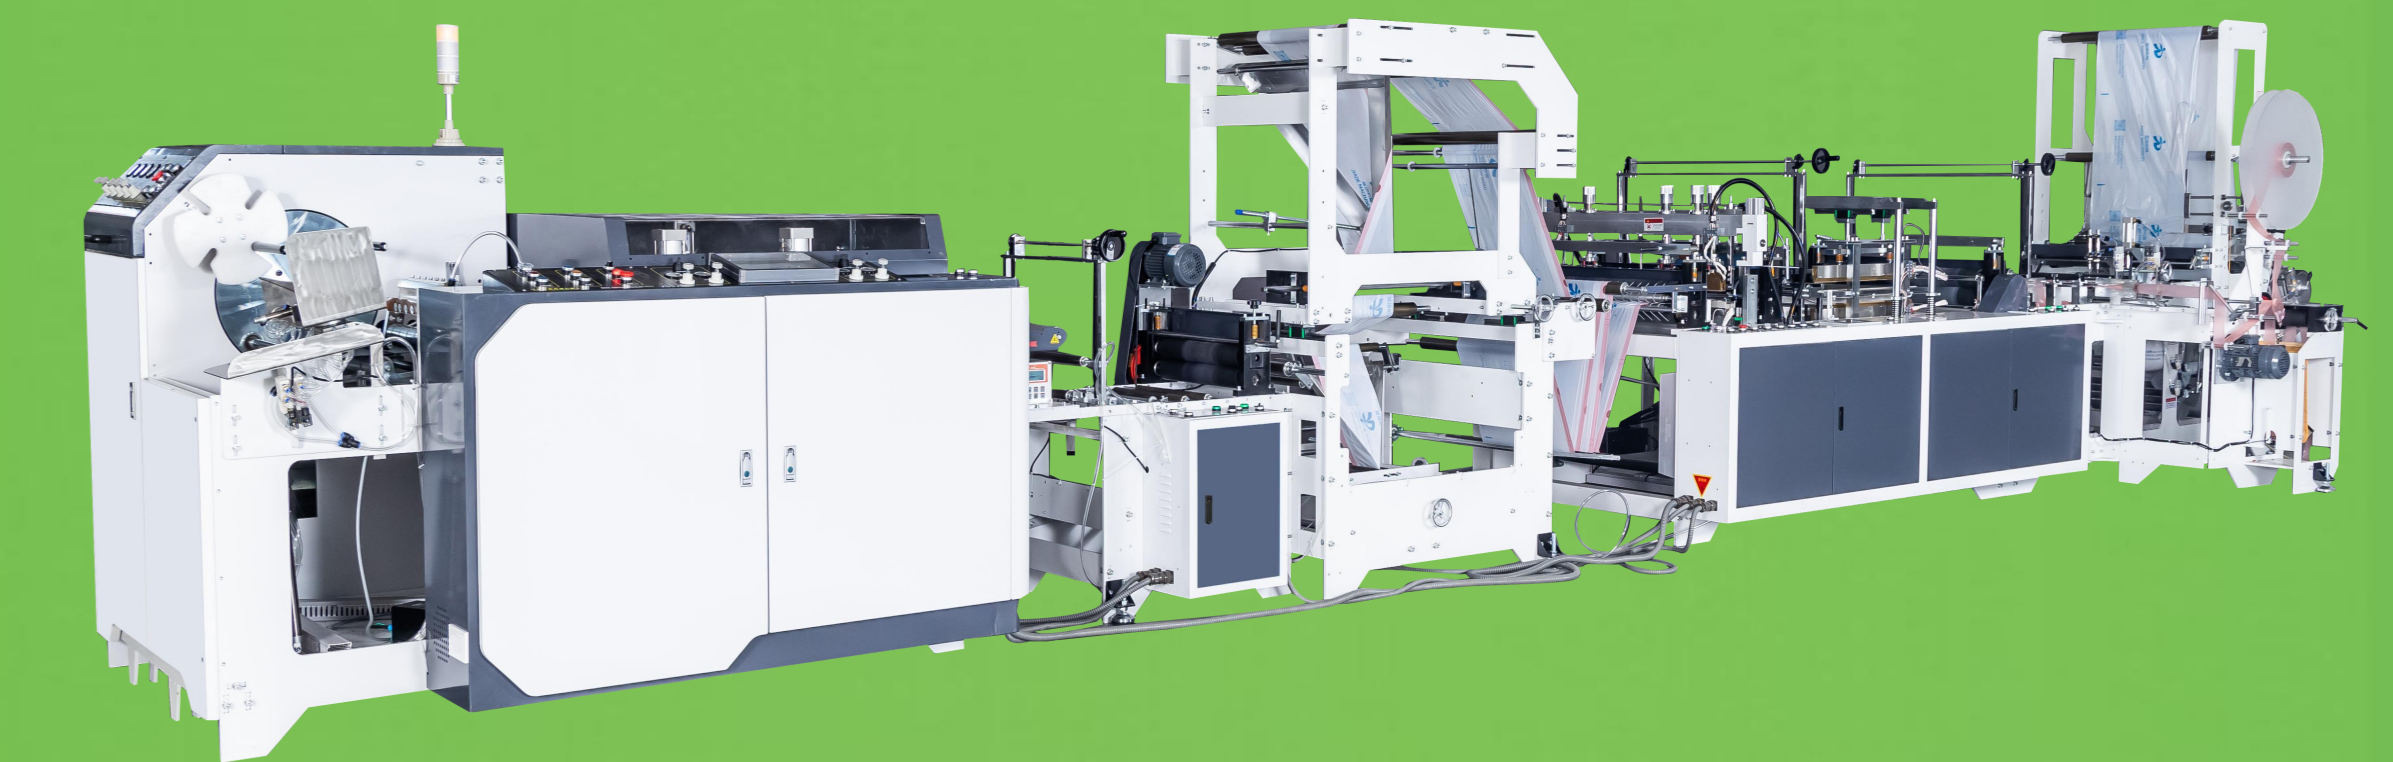

10,000 m<sup>2</sup> office standard factory building

## Advanced Facilities

A blown film extruder is a type of industrial equipment used in plastic processing. It melts plastic raw materials (such as polyethylene, polypropylene, etc.) through an extruder, then blows the molten plastic into a continuous, thin tubular film using compressed air. This tubular film is subsequently cooled, flattened, and cut into various types of plastic films based on specific application needs.

A Full-Automatic High-Speed Extractable Stringing Bag-Making Machine is a specialized industrial device designed for mass production of extractable bags (e.g., garbage bags, drawstring storage bags) with built-in drawstrings. It integrates multiple processes—including plastic film unwinding, bag body forming, automatic string feeding & embedding, heat sealing (to fix the string and seal the bag edges), and bag cutting—into a continuous, high-speed operation. It eliminates manual intervention in key steps, ensuring consistent bag specifications and high production efficiency,

A High-Speed Inkjet Printer is an advanced digital printing device designed for rapid, high-volume printing on various substrates

A Slitting Machine is a specialized industrial device used to cut large, continuous rolls of flexible materials (such as plastic films, paper, textiles, metal foils, non-woven fabrics, and adhesive tapes) into smaller rolls of specific widths or lengths

**waste bag manufacturing facility**

\* High-speed film blowing machine

\* Automatic High-speed Intelleaved  
Drawstring Bagon Roll Making machine

\* High-speed inkjet printer

\* Slitting machine

## High-End Garbage Bag Production Workshop

Equipped with fully automatic ABA film blowing machines, high-speed pop-up drawstring bag-making machines, and high-speed inkjet printers & slitters, with a daily output of 30 tons of garbage bags.

Integrating high-end garbage bag production, packaging, and quality inspection into one:

The production line handles processes such as raw material mixing, film blowing, and bag making;

The packaging area manages packaging processes including slitting, packaging, and sealing;

The quality inspection area conducts quality testing and packaging integrity checks on products.

Capable of producing multiple product series, featuring long durability

Supports 24-hour non-stop operation

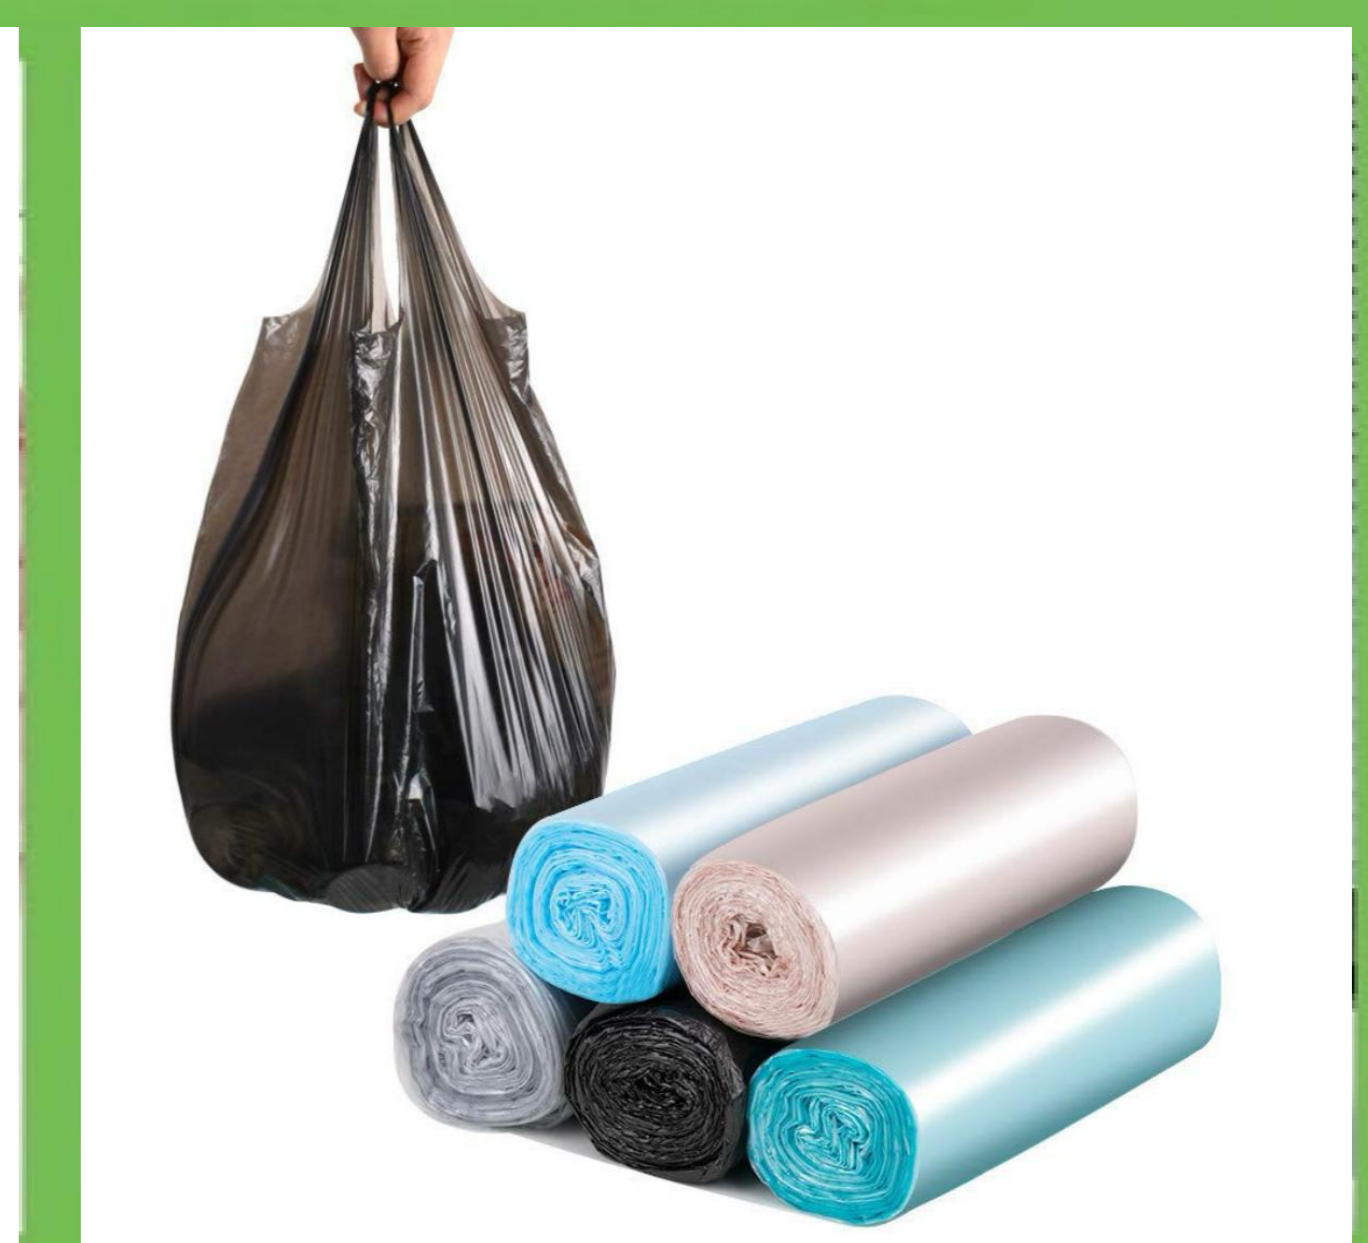

## Complete qualifications

National industrial product production license/brand name/enterprise standard certification,complete qualifications for various test reports

The R&D team is strong,with more than 10 years of rich experience and professional skills in the industry.It is committed to innovation and the development of high-quality products,and can pass various inspections and tests.

Strict quality inspection and on-time delivery

Flexible production and sufficient inventory  
Exquisite craftsmanship and excellent quality

**PRODUCT DETAILS**

*pop-up food storage bags*

- \* Pop-Up Design for Added Convenience
- \* Thickened Design, Less Prone to Tearing & Leaking
- \* Long-Lasting Freshness Retention & Effective Moisture Locking

*slide-cutter cling film*

- \* Selected New Food-Grade Raw Materials
- \* Invisible Blade, Effortless Cutting
- \* 100% New Materials for Better Health

**PRODUCT FEATURES**

- \* Selected New Food-Grade Raw Materials
- \* High Density, Strong Toughness
- \* 100% New Materials for Better Health

**3-in-1 food storage bags**

extended-length solid-color dishwashing gloves

TPE gloves

latex gloves

## PRODUCT FEATURES

- \* Elastic & Snug Fit, Non-Irritating
- \* Food-Contact Safe / Suitable for Food Contact
- \* Soft & Comfortable, Strong & Tear-Resistant

extended-length PVC gloves

thick paper cup

- \* Selected Raw Materials, Water-Based Ink
- \* PE Coating, Double-Layer Thickened Design
- \* Original Wood Pulp, Healthy & Odor-Free

natural-color paper cup

- \* Selected Raw Materials, Natural Color & Unprinted
- \* PE Coating, Double-Layer Thickened Design
- \* Original Wood Pulp, Healthy & Odor-Free

double-layer insulated paper cup

- \* Thickened for Heat Insulation, Anti-Scald & Anti-Slip
- \* PE Coating, Double-Layer Thickened Design
- \* Original Wood Pulp, Healthy & Odor-Free

disposable paper cup

- \* Selected Raw Materials, Water-Based Ink
- \* PE Coating, Double-Layer Thickened Design
