

Transportation Planning Consultant in India

At SLS TTIC Pvt. Ltd. we deliver end-to-end Transportation Planning Solutions designed to enhance mobility, streamline logistics, and support sustainable development. With a strong foundation in technical expertise and industry knowledge, we help organizations and government bodies plan, optimize, and manage transportation systems efficiently.

Our Core Transportation Planning Services

- **Traffic Impact Assessment (TIA)**
Comprehensive evaluations of how proposed developments influence surrounding transportation networks.
- **Urban Mobility Planning Strategies** to improve accessibility, reduce congestion, and enhance multi-modal transportation options.
- **Road Safety Audits & Studies**
Identification of safety concerns, accident-prone zones, and measures to improve road user safety.
- **Transport Modeling & Simulation**
Advanced modeling tools to forecast travel demand, analyze scenarios, and support decision-making.
- **Sustainable Transport Strategies**
Planning focused on green mobility, NMT (Non-Motorized Transport), emission reduction, and resilient infrastructure.

Transportation Planning Consultant in India
