

**WIND ENERGY** MEDIUM VOLTAGE POWER

EdisonFlex™ 5-46KV Medium Voltage Concentric Cables, CSA certified, ensure reliable performance in wind farms. Suitable for wet or dry locations, ducts, conduits, or direct burial, they feature filled strand aluminum conductors, advanced insulation, and a TRXLPE jacket, providing high dielectric strength and effective water blocking. Ideal for efficient power distribution in demanding environments.

**RATINGS: 5kV to 46kV****SIZES: #1/0 AWG to 1500 Kcmil**

1. Aluminum Conductor
2. Conductor Shield
3. Insulation
4. Insulation Shield
5. Copper Concentric Neutral
6. Overall Jacket
