LOW CARBON GLASS

THE IMPORTANCE OF SHIFTING TOWARDS SUSTAINABLE MANUFACTURING

The building sector is responsible for **more than one third of the EU's carbon emissions** with buildings accounting **for over 40% of the energy** consumed.

With more focus than ever on lowering the embodied carbon in construction, **demand for low carbon building materials is increasing.**

WELCOME TO THE FUTURE OF SUSTAINABLE BUILDING

TuffX Glass introduces LOW CARBON GLASS - the world's first low carbon glass, designed for environmentally conscious projects without compromising on quality and performance.

LOW CARBON GLASS KEY FEATURES

64%

RECYCLED CONTENT

High amount of external cullet.
Use of renewable electricity throughout the production process.

6.64kg

CO2 CONTENT

Eq./m2 for 4mm of low carbon glass.

LESS 42%

CARBON FOOTPRINT

When compared with common glass production.

APPLICATIONS

CURRENTLY AVAILABLE FOR

Balustrades, greenhouses and conservatory roofs.

COMING SOON

All TuffX glass applications will transition to Low Carbon Glass.

OUTSTANDING ENVIRONMENTAL PERFORMANCE

TuffX's commitment to sustainability is reflected in the exceptional performance of LOW CARBON GLASS, offering exactly the same aesthetics as the regular clear float glass. **TuffX's LOW CARBON GLASS is a basic soda-lime silicate glass produced using the float procedure** to be used in building, furniture & industrial applications. It is in conformity with the European Standard EN 572-2.

DECLARATION OF THE MAIN PRODUCT COMPONENTS

The product is 100% glass CAS number 65997-17-3.
There is no "Substance of Very High Concern" (SVHC) in concentration above 0.1% by weight, following the European REACH regulation (Registration, Evaluation, Authorization and Restriction of Chemicals).

EPD ENVIRONMENTAL PRODUCT DECLARATION

Our LOW CARBON GLASS has verified EPDs, available on the Environdec website. Our product stages include the extraction and processing of raw materials and energy, ensuring transparency and sustainability throughout the lifecycle.

THICKNESS OPTIONS TECHNICAL SPECIFICATIONS

Monolithic Glass Thickness Options: 4mm, 5mm, 6mm, 8mm, 10mm and 12mm.

Laminate Glass Thickness Options: 11.5mm, 12.5mm, 17.5mm, 21.5mm and 25.5mm.

JOIN FORCES WITH TUFFX
AND BECOME A PARTNER

PARTNERING FOR A GREENER FUTURE

Explore the collaborative opportunities with LOW CARBON GLASS through our partnership strategy, built on trust, support and shared success.

TuffX offers a unique partnership model, inviting a select number of UK partners to join us in introducing LOW CARBON GLASS nationwide. With a handshake agreement rooted in trust, our partners benefit from geographical exclusivity, collaborative marketing efforts and agreed sales levels over defined periods. Together, we can redefine the future of sustainable building and drive mutual growth and prosperity.

3 SIMPLE STEPS

STEP 1 Email us expressing your interest to sales@txpro.co.uk
STEP 2 Our team will check your company's geographical coverage and will share with you the demanded KPIs
STEP 3 Partnership promise is agreed and you are now a TUFFX Partner for LOW CARBON GLASS.

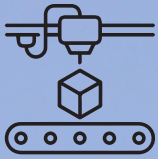

OUR COMMITMENT TO EXCELLENCE

TuffX Processed Glass Ltd., has nearly twenty years experience in specialist, toughened safety glass manufacturing. TuffX is established as one of the UK's most progressive, customer-oriented companies.

At TuffX, we prioritise transparency, ensuring clear communication, product availability and reliable delivery. Our commitment extends to addressing any concerns promptly, including damages and returns, and providing comprehensive warranties for peace of mind.

Trust TuffX to deliver on our promises, supporting you every step of the way
