- Types of Banking Institutions

ABOUT OPERATION HOPE

The Mission of Operation HOPE is to expand economic opportunity, making free enterprise work for everyone. They apply techniques honed through years of coaching to empower clients to overcome specific financial challenges by transforming mindset, while supporting them in accomplishing their financial goals.

With credentials from nearly 40 federal government agencies, they apply comprehensive knowledge of the financial system—raising credit scores, reducing debt and increasing savings—while enabling individuals to pursue their dreams of owning a home, starting a business or whatever aspirations they may have.

At Operation HOPE, they view the world through an economic lens, identifying the financial obstacles, challenges and pitfalls experienced by their historically “invisible communities”.

PRESENTER

- ♦ Isabelle McLeod | America's Financial Wellbeing Coach | Credit & Money Management
Operation HOPE | HOPE Inside Carver Bank - Brooklyn, NY
