- Improved heart rate
- Decrease inflammation and associated pain
- Boost Immunity
- Stimulate cellular activity
- Neutralize damaging free radicals
- Improves neuro muscular transmission for increased repair
- Restore the body to it's natural state

Our Products

Anti Aging Bed Cover

Patented and American-made, our bed cover is the premier grounding bed system technology in the world, providing a combination of antioxidants and far infrared energy. Our technology allows your body to enjoy all the benefits of being fully grounded from the comfort of your home.

Anti Aging Blanket

Offers all the benefits of the Anti Aging Bed cover with the convenience of easy mobility. Weighted feel with the additional layer of material allowing all surfaces to be utilized. Great on trips or relaxing at home.

Anti Aging Throw

Lighter weight than our Anti Aging blanket with a single layer of material. Lay it across your sofa for everyone to take advantage of the protection and rejuvenation.

BioShield Pillowcase

An accessory to our premier grounding bed system technology, made of the same material and benefits of the Anti Aging Bed cover.

BioShield Office Station

Our Office Station offers the protection needed to eliminate the effect of harmful EMFs while you are in close contact with your devices. Keep yourself safe with our BioShield Office Station!

Biohacking Mattress

Our premium Biohacking Mattress is built for comfort featuring a hybrid support system consisting of an ergonomically molded foam base and topped with a conductive, graphite-infused memory foam offering heat dissipation for an enhanced sleep experience. Designed to be free of known cancer-causing chemicals, commonly found in competitors' models.

Bed cover and mattress available in Twin XL, Full, Queen, King, Cal King & Split King.

Products come with a one-year Manufacturers Limited Warranty.
Mattress comes with a 20-year Manufacturers Limited Warranty.

Anti Aging Bed's 4-in-1 Technology

ANTI AGING BED®

Full Grounding & EMF Shielding

Being fully grounded while you sleep is exciting new technology that reduces inflammation from your body while you sleep by providing mechanical antioxidants to neutralize free radicals. Eliminating free radicals reduces the stress on our immune system allowing quicker and greater recovery.

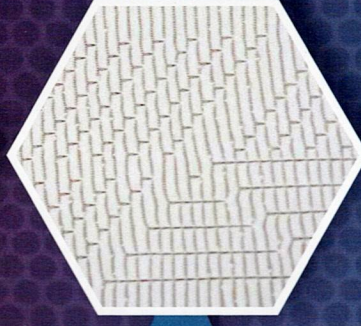

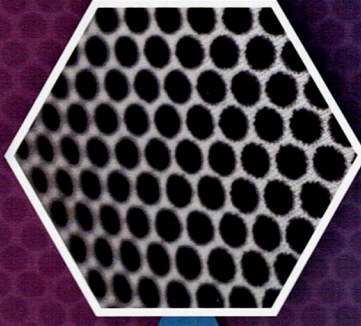

Photo-Bio Modulation

Reactive crystalline structures are embedded into the fabric, when exposed to your body heat they reflect a far infrared energy that in turn stimulates ATP production thus increasing mitochondria function or juicing up our cells battery pack allowing for an accelerated recovery.

Pure Nano Silver Technology

Medical Grade silver threads are woven into the fabric that provides a pure antimicrobial and anti-fungal protection which allows you to enjoy a pure, cleaner and deeper sleep; waking up fully rested while disarming any bacterial impact.
