OUR PRODUCTS

HIGH APEX SHED

The High Apex Shed offers a practical and spacious design with a 5'9" eaves height and a 6'10" ridge height, ensuring ample headroom. Featuring a 5'9" by 2'6" wide door and interchangeable sides for versatile placement, each model is equipped with at least two fully glazed and sealed windows for natural light. Available in a variety of sizes, starting from 6' x 4', the High Apex shed is designed for both functionality and durability.

APEX SHED

The Apex Shed is one of our most popular ranges, delivering exceptional value without sacrificing quality. With a minimum eaves height of 5'4", the ridge height varies depending on the size, starting at 6'2" for a 6' x 4'. Available in sizes up to 12' x 8', this range offers flexibility to suit your needs. Models measuring 8' x 6' and below come with one window, while larger sizes feature two windows. For added customization, you can opt for a no window design at no additional cost.

PENT SHED

The Pent Shed offers exceptional versatility with its taller sections, allowing you to position the door on any of three sides and even offset it if desired. Windows can also be placed on the lower side for added flexibility. The standard Pent Shed features a height of 6'6" at the front, sloping down to 6' at the rear. For sheds larger than 10' x 6' we increase the height by 3 inches and use robust 3" x 2" framing in the roof for added strength. The standard door is 2'6" wide, but can be upgraded to a 3' door, 3'6" double doors or 4' or 5' wide double doors for an additional cost. For added security, you can choose security windows or opt for no windows at no additional cost.

WORKSHOP

The Workshop provides an ideal working space for tackling all those projects you've been putting off. It also serves perfectly as a spacious shed. The practical 3'6" wide double doors offer convenience, with the 2'6" door used for everyday access and the additional 1' bolted door available when larger items need to be stored. An opening window comes standard, with the option to add additional windows. The eaves height is a generous 6', while the overall height varies depending on the building size, typically ranging from 7' to 7'6".

STRATFORD

The Stratford is built with robust 70mm x 45mm framing throughout, providing a sturdier and more substantial feel compared to standard Apex sheds. This added strength makes it an excellent choice if you're considering insulating or lining the interior. You can customize the Stratford with optional opening windows, double doors, or even an extended roof. The eaves height is a solid 6', while the ridge height varies by building size, typically ranging from 7' to 7' 6"

SOLAR POTTING SHED

The Solar Potting Shed is the ideal solution for gardeners, perfect for nurturing seedlings and supporting established plants. Its large expanse of sloping glass at the front ensures an abundance of natural light. The door can be positioned on either the right or left side of the building, with the option to add an opening window on the opposite side for an additional cost. Full width staging is included, and you can also upgrade to a stable door if desired.

SECURE APEX SHED

The Secure Apex Shed provides added peace of mind with its fully framed door, featuring sturdy butt hinges, a mortice lock, and a sleek chrome handle. Designed with security in mind, the shed includes smaller windows, which can be placed on one or both sides to suit your preference. Boasting extra height with 6'3" at the eaves, the overall ridge height varies depending on size, typically reaching 7'6" for an 8' x 6' model.

CABIN

The Cabin offers a refreshing alternative to the traditional shed, combining practicality with a charming design. Its attractive front features side wings and large Georgian style windows. The door can be centrally positioned with a window on either side, or you can choose an offset door with windows next to it. Additional windows can be added on one or both sides of the building for an additional cost.

OUR PRODUCTS

STUDIO

The Studio is constructed in 45mm x 45mm framing with 70mm x 45mm used in the roof and features a contemporary design that elevates any outdoor space. Standard models include full height double doors flanked by a full height window on either side, creating a bright and inviting interior. For added flexibility, the doors can be offset, with options for windows on one side or no windows at all. You can also choose to add extra windows as needed. The glass is laminated for enhanced safety and durability, and the studio comes pre glazed. Door fittings are available in modern chrome with robust butt hinges or in elegant black antique, as shown. The roof includes a 1'3" overhang at the front, boarded underneath.

DELUXE STRATFORD PENT

The Deluxe Stratford Pent is constructed with robust 70mm x 45mm framing throughout, providing a more substantial feel and extra strength compared to standard pent sheds. This makes it an excellent choice if you're considering insulating and lining the interior. It includes a framed ledge and braced door with a mortice lock and handle, as well as a joinery made opening window as standard. You can also order an additional opening window for an extra cost. The front height is 7'3", while the rear height is 6'3", with these measurements being internal. Custom designs are available to meet your specific needs.

OUR PRODUCTS

HOBBY

The Hobby offers a refreshing alternative to the traditional shed, featuring a charming chalet style design. The door can be centrally positioned with a window on either side, or offset with windows on one side. Additional windows can be added on one or both sides for an extra cost, and you can also opt for an opening window for an additional fee. If side windows are not needed, the Hobby can be constructed without them at no extra cost.

PELHAM

The Pelham is an extra height apex building that allows for versatile door placement on the long side. It can be positioned centrally with a window on either side this is our most popular configuration or offset to one side with large Georgian style windows. The added height of the building enhances its adaptability, allowing the door to be placed on the gable end with windows along the long side. This makes it ideal for anyone seeking a traditional apex shed with extra height. The eaves height is 6'3", while the ridge height typically ranges from 7'6" to 8'.

PENT POTTING SHED

The Pent Potting Shed is the perfect solution for avid gardeners, designed for nurturing seedlings and supporting more established plants while providing ample storage for your garden tools. Each building includes full width staging and two opening windows as standard. The windows can be positioned to suit your needs, and additional windows can be added for an extra cost. The door is typically located at one end but can be fitted on the front high side upon request. For added versatility, you also have the option to upgrade to a stable door for an additional fee.

BANTOCK

The Bantock is an extra height apex building, allowing for versatile door placement along the longer eaves side. The door can be positioned centrally with a window on either side, this is our most popular configuration, or offset to one side with windows to enhance adaptability. Additionally, the door can be placed on the gable with windows along the long side, making it perfect for those seeking additional height in their apex shed. The eaves height is 6'3", while the ridge height ranges from 7'6" to 8'.

REGENCY

The Regency is one of our most popular summer houses, featuring a traditional design with joinery quality Georgian style swept arch double doors and fixed windows on either side. The windows include six panes on an 8' front and nine panes on a 10' front and larger. The roof has a 1'3" overhang at the front, and optional side windows are available in both fixed and opening styles. A 2'6" wide veranda with decking boards can also be added if desired. The doors are equipped with a mortice lock and elegant black ornate hinges and handle, with the option for chrome fittings. The doors are fully glazed, but can be half glazed at no extra cost if preferred.

WOODFORD

The Woodford is one of our most popular summer houses, featuring a classic design with joinery quality Georgian style single door and fixed four pane windows on either side. The roof boasts a 1'3" overhang at the front, and optional side windows are available. You can also add a 2'6" wide veranda with decking boards if desired. The doors are fitted with a mortice lock and elegant black ornate hinges and handle, although chrome hinges and handles are also available. The doors are half glazed, as shown.

RETREAT

The Retreat is inspired by the Regency, featuring robust 70mm x 45mm framing that provides a traditional look. It includes joinery quality Georgian swept arch double doors and fixed windows on either side, with six panes on an 8' front and nine panes on a 10' front. The roof boasts an extended overhang of 3' at the front, and optional side windows are available in both fixed and opening styles. A 3' wide balcony with decking boards can also be added if desired. The doors are equipped with a mortice lock and elegant black ornate hinges and handle, with the option for chrome fittings. The doors are fully glazed, but can be half glazed at no extra cost if preferred.

OAKLAND

The Oakland is an attractive summer house that offers a traditional look, featuring joinery quality double doors and 2' x 2' glazed windows, along with two fixed windows on either side. The windows come with four panes on both the 8' and 10' models, ensuring ample light. The roof includes a 1'3" overhang at the front, and optional side windows are available in both fixed and opening styles. A 2'6" wide veranda with decking boards can also be added if desired. The doors are fitted with a mortice lock and elegant black ornate hinges and handle, with the option for chrome fittings at no extra cost.

OUR PRODUCTS

GROUNDSMAN

The Groundsman is constructed with robust 70mm x 45mm framing throughout, providing a sturdier feel compared to standard Apex sheds. It features a framed ledge and braced door equipped with a mortice lock and handle for added security. Each building includes a joinery made opening window (2 on 10' sheds or larger) and come standard with a sill and workbench. With an eaves height of 6'3", the ridge height varies depending on the building size, typically ranging from 7' to 7'6".

CORNERHOUSE

The Cornerhouse summerhouse offers a stylish solution for utilizing corner spaces, available with a choice of fixed or opening windows. It features antique style hinges and mortice lock handles, with the option of modern chrome fittings and robust butt hinges. The shed stands at 6'6" at the front and 6' at the rear, showcasing joinery quality swept arch doors and windows. Available in sizes of 6' x 6' or 7' x 7', the Cornerhouse is designed to enhance any garden or outdoor area.

PENT TOOL STORE

The Pent Tool Store provides a space saving storage solution ideal for your gardening tools and equipment. Available in four standard sizes, it can also be customized to meet your specific needs. The tool store features a height of 5'9" at the rear and 5'4" at the front, with the option to reverse this configuration upon request.

APEX TOOL STORE

The Apex Tool Store offers a versatile, space saving storage solution. Available in four standard sizes, it can also be customized to meet your specific requirements. The tool store features a height of 6'6" at the ridge and 5'4" at the eaves, providing extra headroom compared to the Pent Tool Store.

CORNER SHED

The Corner Shed is available in two sizes: 6' x 6' and 7' x 7', featuring a distinctive pent roof style. It's perfect for fitting into those awkward spaces in your garden. You can also customize the design by adding alternative doors and windows to create a unique look that suits your needs.

BAR

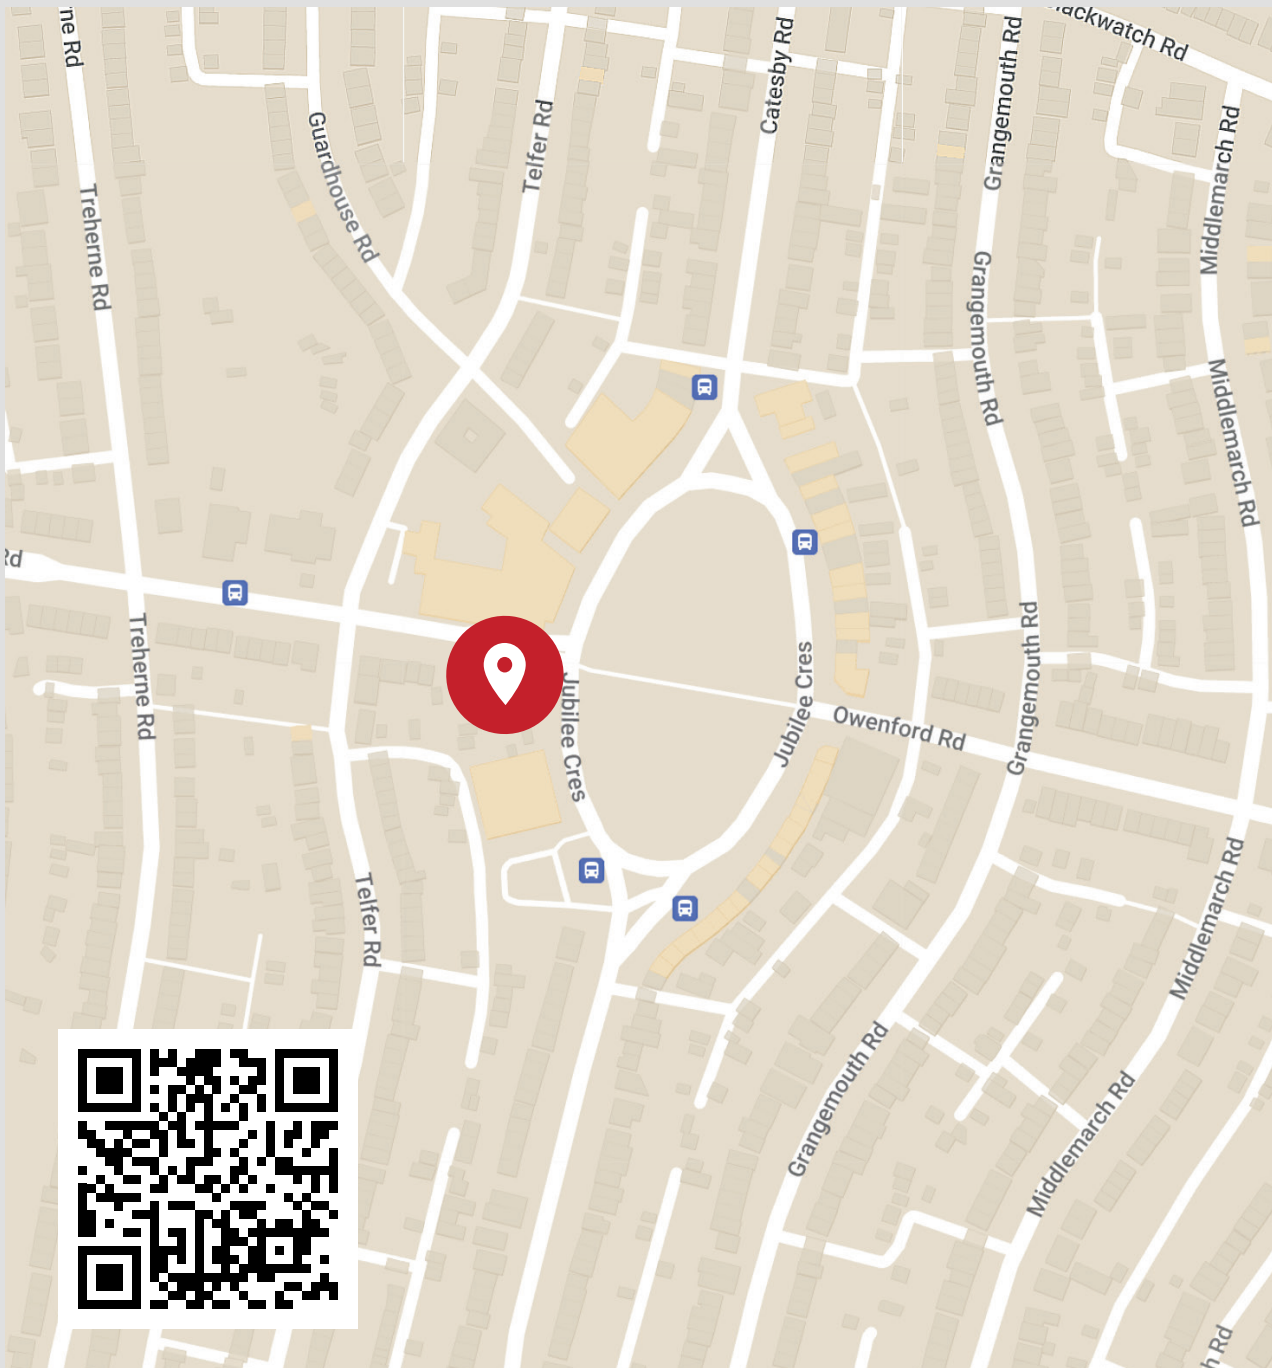

The Bar comes in a range of sizes and can be tailored to suit your exact needs. It features a sleek pent roof with a 1'3" boarded overhang, 70mm x 45mm framing underneath for added height and extra support. The front includes double opening shutters, while the side door can be customized as either a single or stable door. Inside, a 1'2" wide bench is perfectly positioned beneath the front opening, offering a cozy spot to sit back and enjoy your outdoor bar experience.
