VueReno | Client Shopping List

Bathroom Case | Navy Transitional

Reference Prices | Not a Final Quote

All products, retailers and prices in this list are for purchasing guidance and preliminary budgeting only and do not constitute a final quotation. Actual costs may vary with purchase-day pricing, stock, promotions, delivery, tax, actual dimensions and quantities, product compatibility, installation conditions, contractor charges, and the final materials, grades, finishes and specifications selected by the client. For example, solid wood cabinetry, higher-grade stone, different tile specifications or upgraded hardware may increase or decrease the final cost. VueReno provides purchasing and budget guidance only; final product, material and construction selections are confirmed by the client.

Find real products first → finalize the rendering → keep the rendering and shopping list closely aligned

ON-SITE CONFIRMATION
REQUIRED

By actual area

Confirm on site

Keep the existing floor tile if it is in good condition; upgrade only to strengthen the overall style.

Tub apron / side panel

Simple white panel compatible
with the existing tub

OPTIONAL UPGRADE

ON-SITE CONFIRMATION
REQUIRED

Price unavailable

Confirm on site

Tub model, length and installation structure must be confirmed.

Important Notes

24-hour physical testing: all final wall and millwork colours must be tested with a real sample and viewed in daytime natural light, shadow and evening lighting. Screens and renderings cannot replace physical confirmation.

KEEP does not mean “no renovation”: existing floor tile, tub and windows can reasonably stay if they are in good condition. A higher budget does not mean everything must be replaced.

OPTIONAL UPGRADE is a choice, not a requirement: floor tile, tub panel, privacy lever and similar items should be upgraded only when the client wants a stronger overall style or the existing condition calls for it.

Prices are references only: final costs depend on purchase-day retailer / website pricing, stock, promotions, delivery, tax and contractor charges.

On-site dimensions and areas govern: for cabinetry, glass, tile, paint, tub panels and similar items, VueReno does not guarantee site measurements or material quantities.

Construction boundary: electrical, plumbing, structure, waterproofing, wall openings, piping, valves, installation methods and work sequencing must be confirmed on site by qualified professionals. VueReno does not provide construction drawings or construction services.

Verified Major-Item Reference Budget

Approx. CAD \$2,706.37-\$2,890.37. Excludes area-based materials, installation, tax, delivery and on-site adjustment costs. This figure is for budget planning only and is not a final total.
