Founding Program Director

Anesthesia Assistant (CAA)
Professional Master's Degree Program

POSITION PROFILE

Our client is a multi-state, nationally accredited and licensed academic institution (the "Institution" or "College") with over 60 years of achievement and student graduate success in healthcare education. The College is seeking a visionary leader to serve as its founding program director (the "Executive") to launch its Master of Science in Anesthesia (MSA) Professional Anesthesia Assistant program. This Executive will lead a new graduate program within the Institution and build an accomplished faculty to address the growing need for clinical healthcare professionals working under the supervision of physician anesthesiologists in the U.S.

The Institution is deeply committed to student success and excellence. The Institution has ground-based campus locations in high growth attractive markets to work and live and some of the fastest growing states for CAAs nationally.
