

We have been working with Andrew for our Dairy Farm bookkeeping for over a year now. He has provided us with a professional yet personal service and ensures that we understand all of our reports in QuickBooks. He has given us support and assistance in teaching our daughter and her husband about our farm business finances and has helped them grasp our financial position. He is easy to work with and very knowledgeable. It is our pleasure to work with Andrew.

We would highly recommend Andrew's services.
