

Limited Warranty

J & J Global, LLC (Seller) warrants to the original Buyer only, that each product will be free from defects in material and workmanship for a period of one (1) year from date of purchase. SELLER'S SOLE OBLIGATION AND BUYER'S EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY SHALL BE THE REPAIR OR REPLACEMENT OF PARTS, WITHOUT CHARGE, WHICH ARE DEFECTIVE IN MATERIAL OR WORKMANSHIP. ANY PARTS AS DETERMINED BY THE SELLER WHICH HAVE BEEN MISUSED; ABUSED OR DAMAGED EITHER DIRECTLY OR INDIRECTLY FROM REPAIRS OR ALTERATIONS ATTEMPTED BY UNAUTHORIZED PERSON; IMPROPER MAINTENANCE, NEGLIGENCE OR ACCIDENT ARE NOT COVERED BY THIS LIMITED WARRANTY. This warranty does not apply to damage, heat-induced coloration changes, scratching or alteration due to normal use or weathering. To make a claim under this Limited Warranty, email contact@ezreplacement.com or visit www.ezreplacement.com for warranty questions and claims.

Additional Limitations

THIS LIMITED WARRANTY DOES NOT APPLY TO ACCESSORY OR CONSUMABLE ITEMS RELATED TO THIS PRODUCT. ALL IMPLIED WARRANTIES SHALL BE LIMITED IN DURATION TO ONE (1) YEAR FROM DATE OF PURCHASE. IN NO EVENT SHALL SELLER BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LIABILITY FOR LOSS OF PROFITS, ARISING FROM THE SALE OR USE OF THIS PRODUCT.

If any provision of this Limited Warranty is for any reason held to be invalid or unenforceable, such provision shall not affect any other provision herein, this Limited Warranty shall be construed as if such invalid and/or unenforceable provision had never been contained herein.

This warranty gives you special legal rights, and you may also have other rights which vary from state to state.

This warranty contains the entire agreement between Seller and Buyer and supercedes any and all prior agreements, arrangements, or understandings between the parties relating to product warranty.

Due to ongoing product development the actual product or products may vary from the illustrations or photos shown within this manual.

Vittoria 2 Head Lamp Post & Planter Instruction Manual

Model No. 302014

Read the instructions and precautions before use of this product

Please keep this instruction manual for future reference

For warranty information, please refer to the back page of this instruction manual.

PARTS & HARDWARE LIST

PART #	DESCRIPTION	QUANTITY
A	Lantern Assembly	1
B	Lantern Top	2
C	Lamp Post Base	1
D	Upper Post	1
E	Middle Post	1
F	Lower Post	1
G	Top Planter Base	1
H	Bottom Planter Base	1
I	Support Ring	1
J	Small Screw 4mm	4
K	Medium Screw 4mm	3
L	Large Bolt 10mm	3
M	Hex Nut 10mm	3
N	Acorn Nut	3
O	Flat Washer	3
P	J-Bolt	3
Q	Mounting Plate	1
R	Rechargeable Battery	3

Parts Detail

Carefully remove the contents from the package. If any parts are missing do not attempt to use the product until they have been obtained and correctly installed.

Care Instructions

- Clean any dirt and debris from the solar panels. the panels cannot recharge if light is obstructed. Use a soft cloth to clean the panels. Do not use abrasives or chemicals that might scratch or damage the UV coating.
- In a region where snow and ice are likely, and the light assembly is covered with snow for an extended period of time the batteries will require recharge for at least 8 hours.

Recycling

Please dispose of batteries properly.
Consult your local telephone listings for
a battery recycling center in your area.

Ambient temperature
maximal 40°C (105°F)

Do not dispose of
batteries in
household waste

Do not throw
batteries into water!

Protect batteries
against heat and fire
risk of explosion

Recycling

OPERATING SOLAR LIGHT

Instructions For First Time Use

Allow lantern to charge for at least 8 hours in full sunlight with the OFF/ON switch in the OFF position. The OFF/On switch is located under the solar panel (*See Figure 7*). The switch has two positions ON and OFF. Once the batteries are fully charged, set the switch to the ON position. If the lantern doesn't turn on after initial charging, ensure batteries are making contact with the terminals.

Battery Replacement

NOTE: The batteries in your solar lantern come preinstalled from the factory.

1. (**SEE FIGURE 7**) Remove the screws from the underside of the solar panel housing. Solar panel housing is located on the top of the lantern assembly.
2. Carefully lift the solar panel off the housing. Circuit wires are attached to the solar panel, be careful not to disconnect the wires. Batteries compartment is located under the solar panel.
3. Remove old batteries.
4. Replace old batteries with new ones of the same rating. Reference polarity direction inside battery compartment.
5. Replace the solar panel on the housing and secure with screws retained from step 1.
6. The rechargeable batteries need to be fully charged before operating light assembly. See "Operating Solar Light" to restore solar light assembly to full operation.

SOLAR LIGHT PLACEMENT

Where To Place the Solar Light

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours light is illuminated is directly proportional to the number of hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its burn time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically.

ASSEMBLY INSTRUCTIONS

Lantern Assembly

1. (**See Figure 1**) Attach the lantern top (B) to the lantern assembly (A) using the small screws 4mm (J).

Planter Base Assembly

Note: If using ground mounting instead of planter base mounting refer to "Ground Mounting" on page 3.

1. (**SEE FIGURE 2**) Attach lamp post base (C) to planter base (H) using hex bolts (L), mounting plate (Q), Flat washer (O), and hex nut (M). Make sure the mounting plate, flat washer and hex nut are secured to the hex bolt on the underside of the bottom of planter base (H).

2. (**SEE FIGURE 3**) Attach the planter top (G) to the planter bottom (H) by lining up the 4 tabs and pulling the planter top up until tabs snap into place. Turn the top planter base clockwise to lock the the tabs into place.

Note: It may be necessary to put pressure on the bottom planter base when pulling the top planter base up.

Support Ring Assembly

1. (SEE FIGURE 4) Place the support ring (I) onto the top of the lower lamp post (F). Attach lower lamp post (F) to lamp post base (C) using medium screw 6mm (K) in 3 places. Lower the support ring down the post until it rests on the top of the top planter base (G). To complete the solar lamp post with planter go to "Lamp Post Assembly" steps 2, 3 and 4 on page 4.

CAUTION: To prevent product damage or personal injury from tip-over, lamp post planter base must be placed on a flat, level surface and be filled with 4 in. (minimum of 30 lbs.) of gravel or stone.

Figure 4

Figure 5

Alternate Ground Mounting

1. (SEE FIGURE 5) Thread hex nut (M) onto the J-bolt (P). Make sure the hex nut is threaded down the j-bolt far enough for the top of the J-bolt to fit through the mounting plate (Q) and the lamp post base (C) with enough threads to secure the base to the j-bolts with acorn nuts (N). Repeat the step for other j-bolts.
2. Using the mounting plate (Q) as a guide insert the J-bolts with hex nuts into a wet concrete pad until the hex nuts are below pad level.
3. Place the mounting plate (Q) onto the J-bolts forming a mounting bracket.
4. Align the lamp post base (C) holes with the J-bolts and secure with the acorn nuts (N).
Note: Refer to "Lamp Post Assembly" on page 3.

Lamp Post Assembly

1. (SEE FIGURE 6) Attach lower lamp post (F) to lamp post base (C) using medium screw 6mm (K) in 3 places.
 2. Place the completed lantern assembly (A) on the upper lamp post (D) and twist clockwise to secure.
- Note:** If using the planter base to mount the lamp post refer to Figure 4 before proceeding to the next step for lamp post assembly.
3. Place the middle lamp post (E) onto the lower lamp post (F) and twist clockwise to secure.
 4. Place the upper lamp post (D) onto the middle lamp post (E) and twist clockwise to secure.
