Model No. 851028, 851029

Read the instructions and precautions before use of this product

Please keep this instruction manual for future reference

For warranty information, please refer to the back page of this instruction manual.
Battery Replacement
The rechargeable batteries come preinstalled from the factory. The batteries are located inside the battery compartment.

1. (SEE FIGURE 8) Remove battery compartment (A) from top of umbrella, turn counter-clockwise to unlock and separate.
2. Carefully unplug connector plug from battery compartment receptacle.
3. Remove battery covers.
4. Remove and replace old batteries with new rechargeable batteries of the same rating.
5. Install new batteries in proper direction, reference polarity (+/-) markings for correct placement.
6. Refer to section entitled Rechargeable Batteries* to restore solar lights to full operation.

Battery Recycling
Please dispose of used batteries properly. Consult your local telephone listings for a battery recycling center near your area.

Do not dispose of batteries in household waste
Do not throw batteries into water
Protect batteries against heat and fire due to risk of explosion!
Recycling

Carefully remove the contents from the package. If any parts are missing do not attempt to use the product until they have been obtained and correctly installed.

ASSEMBLY INSTRUCTIONS

△ CAUTION: DO NOT INSERT END OF UMBRELLA POLE INTO THE GROUND. The solar umbrella is designed to be used with an umbrella stand (not supplied).

Attach Solar Battery Compartment Assembly
1. (SEE FIGURE 1) Position battery compartment (A) at top of umbrella (B).
2. Insert connector plug attached to umbrella into receptacle located on battery compartment.
3. Insert battery compartment stem into top of umbrella. Turn battery compartment clockwise to lock and secure.

Charging Rechargeable Batteries

NOTE: The rechargeable batteries are preinstalled from the factory. Before operating, the batteries need to be fully charged. The batteries require at least 8-hours of full sunlight to charge.

1. (SEE FIGURE 6) Verify power is off.

2. Place the fully assembled solar umbrella in full sun, where it will receive direct sunlight for at least 8 hours per day.

NOTE: The number of hours light is illuminated is directly proportional to the number of hours of sunlight it receives. The solar panels cannot recharge the batteries if light is obstructed.
