December 6, 2016

To Whom it May Concern:

This letter is to confirm that I worked with Donald Steckey at a large dental laboratory, in Chico, California.

It was here where I came to know him and learn about his work ethics. I found him to be prompt, dependable and very focused on doing a good job on any task that he was assigned to do.

Donald has extensive knowledge in the fabrication of cast partial denture frameworks. He can perform all phases of the manufacturing process from planning and design to the finished product. I feel he would be an asset to any dental laboratory that fabricates chrome frameworks.

If you have any question about Donald, please don't hesitate to contact me directly.

Sincerely,

*Tony Martinico*

Tony Martinico, DLT
