To Whom it May Concern:

This is a personal reference regarding Donald Steckey.

I am a behavior therapist by profession and have known Donald for almost two years. My acquaintance with Donald is such that he is a renter. I have property which he rents from me.

For all the times that I've rented to him, he was never late with rent and was always on time.

He maintains his area in a clean and orderly fashion and takes care of the property as his own. Donald is a quiet person and keeps to himself. He works hard and likes his quiet time. I know him to be a family man and he loves his kids. Despite his children living far away, he tries to nurture and support them as best he can.

I would vouch for his character and integrity.

Sincerely,

Claudia Weber
