To Whom it May Concern:

This is a letter of recommendation regarding Donald Steckey. I have been in dental technology for well over 33 years, both as a technician and as a laboratory owner.

I worked with Donald for over two years. He is always on time and always in great spirits. Whenever I needed advice on difficult cases, he was always able to solve the problems. Donald always had great input combined with a vast sum of knowledge in his area. He's a 'heads down - get the work done' kind of guy. Donald's work always looks like jewelry. Donald is a great technician that is always willing to go the extra mile.

Great worker! Great person! Great attitude!

Call me anytime and I will brag about him even more.

Cordially,

*Chris Rosellini*
