

Documents required for PSR

E-Pro Electric Inc. is very efficient in the safety certification process. The below will assist in the quick approval of your equipment.

- 1) Wiring Diagram
 - Complete copy in .pdf format
 - Including diagram(s) for any alterations/safety circuits

- 2) Safety PLC (if used)
 - Safety logic in .pdf format
 - Copy of safety signature.

- 3) CSA certification
 - Proof of inspection (little orange, blue or white sticker)
 - Contact us for more information on this if needed.
 - E-Pro can provide this service in a very timely manner.

- 4) Robots – if the equipment utilizes a robot(s)
 - Safe move report/signature
 - Robot reach layout showing guarding/cell layout
 - Proof of safety certification from the OEM
 - Robot must be CSA certified. (contact us to find out)

- 5) When you contact us for final inspection please consider the following
 - Equipment to be powered up and ready for safety commissioning.
 - Please have an experienced operator available for testing/reset.
 - Would be beneficial to have a copy of the wiring diagram available.
 - All guarding must be in place.
