

Cody

Kyle

Dear Friends,

November has arrived as we graduate TWO students at the same time since COVID shrunk our numbers and restricted the in-flow of students. Congratulations are in order for Kyle & Cody! It has been a difficult year full of challenges and changes. But the hard work paid off and a new set of “TROPHIES OF GOD’S GRACE” will re-enter the normal flow of life. This time, there IS a new NORMAL. This time, God has replaced the bad addictive behavior for an addiction to Him.

We are proud of the progress these two have made and only pray they will continue to make good choices and keep God in the center of all they do. Matthew 6:33 says, “Seek ye first the kingdom of God and His righteousness and all these things shall be added unto you”.

Kyle came to us from North Augusta, SC after months of trying to get freed from the claws of the legal system. His desire to “just get off drugs” has shifted to an appreciation for what Jesus did for him and a personal desire to please God. We love you Kyle.

Cody is a young man that the devil thought he had for life. Some good people around him decided he deserved a second chance and helped him get to us. His struggles have been many and they are far from over; but, with the help of God HE CAN BE AN OVERCOMER! Pray for him as he leaves us.

Lately, I’ve had some experiences where people do a good job at something, and they know it was their best. What is more important than telling them how good they did...most people would rather hear “THANK YOU”. To be appreciated is a basic human desire. For many of our students, it is common they have not been appreciated. Many have been kicked to the curb as useless and scarred for life. Let’s be THANK YOU people for those who are doing a good job.

We are slowly working our way through the permitting process for our new offices. It appears we are just over halfway toward being able to start construction. The bureaucracy involved in surveying, soil testing, site planning, water conservation planning, architecture design, structure engineering and many other facets of the project just take TIME! I am a “Just do it” kind of guy and learning to take it one day at a time is not my cup of tea. Pray for me!

One item we need is a good working tractor. We have worn out the one we had and are looking toward the spring gardening, bushhogging and need to manage the construction site, keeping it cleared of weeds. If you know of a good source (or have one you would donate) please let me know. We have the implements such as disks, bushhog and box blade that fit a 3-point hitch.

Thank you for all you do to help so many young men on their journey to sobriety.
