

Sec. 4934.01. As used in section 4934.01 to 4934.14 of the 76396  
Revised Code: 76397

(A) "Direct current fast charging station" means an electric 76398  
vehicle charging system capable of distributing electricity at 76399  
fifty kilowatts or more of direct current to an electric 76400  
vehicle's rechargeable battery at a voltage of two hundred volts 76401  
or more. 76402

(B) "Electric cooperative" and "electric distribution 76403  
utility" have the same meanings as in section 4928.01 of the 76404  
Revised Code. 76405

(C) "Electric vehicle" means a vehicle that is powered wholly 76406  
by a system that can be recharged via an external source of 76407  
electricity, including a vehicle for public or private use that is 76408  
a passenger car, commercial car or truck, a vehicle used for 76409  
public transit, a vehicle used in a vehicle fleet, a vehicle used 76410  
in construction work, and a vehicle used in industrial or 76411  
warehouse work. 76412

(D) "Electric vehicle charging provider" means the owner or 76413  
operator of an electric vehicle charging station. "Electric 76414  
vehicle charging provider" excludes any of the following that owns 76415  
or operates an electric vehicle charging station: 76416

(1) An electric cooperative; 76417

(2) An electric distribution utility; 76418

(3) An affiliate or subsidiary of an electric distribution 76419  
utility. 76420

(E) "Electric vehicle charging station" means any 76421  
nonresidential electric vehicle charging system that is both of 76422  
the following: 76423

(1) Capable of distributing electricity from a source outside 76424  
an electric vehicle to the electric vehicle; 76425

(2) A direct current fast charging station or level two charging station. 76426  
76427

(F) "Level two charging station" means any electric vehicle charging system capable of distributing electricity at a minimum of three or a maximum of twenty kilowatts of alternating current to an electric vehicle's rechargeable battery at a voltage of two hundred volts or more. 76428  
76429  
76430  
76431  
76432

(G) "Make-ready infrastructure" means electrical infrastructure required to accommodate the electric load of an electric vehicle charging station. "Make-ready infrastructure" excludes an electric vehicle charging station. 76433  
76434  
76435  
76436

Sec. 4934.03. (A) No electric distribution utility may own or operate publicly available electric vehicle charging stations except through a separate affiliate or subsidiary that is not subject to public utilities commission jurisdiction. 76437  
76438  
76439  
76440

(B)(1) No electric distribution utility may charge its affiliate or subsidiary a subsidized rate, fee, or charge for electric service distributed to the affiliate's or subsidiary's publicly available electric vehicle charging stations. 76441  
76442  
76443  
76444

(2) An electric distribution utility affiliate or subsidiary that owns or operates an electric vehicle charging station shall be subject to the same rates, terms, and conditions that apply to electric vehicle charging providers located in the electric distribution utility's certified territory. 76445  
76446  
76447  
76448  
76449

Sec. 4934.05. Revenues received by an electric distribution utility for providing electric distribution service shall not, directly or indirectly, subsidize investments in the ownership or operation of electric vehicle charging stations. 76450  
76451  
76452  
76453

Sec. 4934.08. (A) An electric cooperative that owns or 76454

operates publicly available electric vehicle charging stations 76455  
shall maintain separate books and records of its electric vehicle 76456  
charging station service. A cooperative shall not include in the 76457  
rates it charges for electric service any electric vehicle 76458  
charging station costs, or any other costs, unrelated to the 76459  
provision of electric service. 76460

(B) An electric cooperative that owns or operates publicly 76461  
available electric vehicle charging stations shall be subject to 76462  
the same rates, terms, and conditions for the operation of 76463  
electric vehicle charging stations that apply to electric vehicle 76464  
charging providers in the cooperative's designated service 76465  
territory. 76466

Sec. 4934.11. Nothing in sections 4934.01 to 4934.14 of the 76467  
Revised Code prohibits an electric distribution utility or 76468  
electric cooperative from recovering the costs of make-ready 76469  
infrastructure through rates or charges authorized under the 76470  
electric distribution utility's distribution rate case under 76471  
section 4909.18 of the Revised Code or through rates or charges 76472  
implemented by the cooperative, as applicable, so long as such 76473  
subsidies for make-ready infrastructure are offered to electric 76474  
vehicle charging providers on a nondiscriminatory basis. 76475

Sec. 4934.14. Nothing in sections 4934.01 to 4934.14 of the 76476  
Revised Code shall be construed to prohibit an electric 76477  
distribution utility or electric cooperative from operating, 76478  
leasing, installing, or otherwise procuring service from an 76479  
electric vehicle charging station on its own premises for the sole 76480  
purpose of serving its own electric vehicles. 76481

Sec. 5101.136. If a person requests the department of job and 76482  
family services to conduct a search of whether that person's name 76483
