Cytotoxicity Analysis of 10% PurePurge Coated Non-woven Polypropylene

Cytotoxicity Analysis of 10% PurePurge Coated Non-woven Polypropylene	EFFECTIVE DATE August 9, 2018
	REPORT NUMBER ME-R-18-0713-0100
	REVISION NUMBER 001

EXECUTIVE SUMMARY

A non-woven polypropylene coated with 10% PurePurge, that had been treated with UVO, dried by heat, was received in July 2018. A cytotoxicity assay in accordance to ISO 10993-5:2009 was performed. Based on the results of this assay, the sample is considered non-cytotoxic.
