

QUICK MASK

QUICK MASK FOR CHILDREN AND ADULTS

Online tutorial available at SewLegacy.com

Hi Quilty Quilters,

After making a ton of masks I decided it need to be quicker. So I eliminated a bunch of seams and made a quick video to show you how to make these super quick. The trick is to fold your fabric in half twice and then cut. It's hard to explain in text so please watch the video. You may sale masks made from this pattern but please do not resale this pattern.

Thank you for your support and happy sewing.
