- Empower executives with leadership and management best practices that enable them to lead with adaptability and resilience

KEY PERSONNEL EXPERIENCE

Award-winning Civil Rights Product Launch	**US Air Force Materiel Command Logistics & Tech Assessment**	**Former Acting Executive Director, Federal Agency**

- Led team that improved the citizen experience and streamlined complaint submission process for the Civil Rights Division via civilrights.justice.gov, which won the Civil Rights Division's highest-level award for exceptional work
- Coached partners in developing cross-functional capabilities and provided high-level roadmaps for building a new complaint intake experience
- Reduced complaint process time from 23 days to 7 days

- Led a remote and on-base team in assessing a two-decade-old flight logistics platform and recommended a high-level modernization roadmap
- Facilitated Agile best practices, resulting in an under-budget delivery and tactical "first step" implementation on Cloud.gov

- Exhibited exemplary leadership by refining the organization's vision and strategic goals, amidst a global pandemic, election season, and presidential transition
- Managed a cross functional organization with over 100 senior-level consultants
- Their strategy-first approach, financial management and resource allocation skills helped steer the $32 million budget agency towards cost recoverability
